SOUTH CAROLINA SHAKEN BY EARTHQUAKE

PIEDMONT DISTRICT IS AGITATED TODAY

TREMORS FELT IN SPARTANBURG AND GREENVILLE COUNTIES

THOUSANDS AROUSED FROM SLUMBER IN EARLY MORNING HOURS

(By United Press) Spartanburg, S. C., Oct. 20.—The Piedmont district of South Carolina was severely shaken today by an earthquake. Tremors were felt in towns and cities in Spartanburg and Greenville counties.

Thousands were aroused by the disturbances which occurred shortly after 3:30 a. m. and continued several minutes.

Window panes rattled and pictures toppled from the walls. The center of the disturbance was reported between Greenville and Pickens, where the disturbances were most violent, and strange rumblings were heard.

Residents at Pickens ran from their homes terrified. Towns which reported disturbances included Anderson, Greer, Easley, Liberty and Union.

The quake was generally felt within a radius of 100 miles of Spartanburg.

ATHENS, GEORGIA, REGISTERS SHOCK

Athens, Ga., Oct. 20.—An earthquake was recorded on the seismograph at the University of Georgia at 3:50 a. m. today, the first shock registered since 1890.

CHESTER EXPERIENCED 2 SHOCKS IN MORNING

Chester S. C., Oct. 20.—Two distinct earthquake shocks awakened residents here at 3:30 a. m. this morning. The disturbances came close together and lasted about 60 seconds.

HENDERSONVILLE, N. C., ROCKED BY TREMORS

Hendersonville, N. C., Oct. 20.—Violent earth tremors rocked Hendersonville at 3:30 a. m. today. Houses were shaken.

ASHEVILLE, N. C., FELT SHARP MOVEMENTS

Asheville, N. C., Oct. 20.—Severe earth shocks were felt here at 3:30 a. m. today, the tremors, lasting several minutes, consisted of a series of sharp movements.

LITTLE HOPE FOR RECOVERY OF PAGE MORRIS, AGED JURIST

Rochester, Oct. 20.—Slight hope is held for the recovery of Page Morris, retired veteran of the United States district court bench in Minnesota, who is at St. Mary's hospital, Rochester, under care of Dr. William Mayo.

His wife and daughter are at his bedside.

Mr. Morris is 71 years old. For three months his illness has been serious. About two weeks ago he was brought from California to Rochester for an abdominal operation. Since that time there has been some improvement in his condition, but because of his advanced age it is feared that a second operation, which soon will be necessary, cannot be performed.

Judge Morris was born in Lynchburg, Va., June 30, 1853. He was educated in a private school and at William and Mary college. He was graduated from Virginia Military Institute in 1872.

After his marriage to Miss Elizabeth Strahan he served as instructor in mathematics at several eastern institutions, later being admitted to the bar at Lynchburg, and in 1886 removing to Duluth.

For three years he engaged in private law practice. He was municipal judge for five years, beginning in 1889. He served as city attorney for one year. In August, 1895, he became judge of the 11th judicial district and resigned a year later when

Turks Use Bayonets on Greek Exchange Victims

ENFORCEMENT OF LIQUOR LAWS IS MORE EFFECTIVE

(By United Press) Washington, Oct. 20.—A complete "victory of law and order over outlawed liquor traffickers" is in prospect, the federal prohibition unit said today in a statement covering the 39 months of Commissioner Haines' administration.

Enforcement is becoming more effective every day, the statement said.

Genuine liquor now is almost impossible to obtain.

MEDIATION HAS FAILED IN THE EASTERN TONG WAR

FEDERAL INTERVENTION MAY BE SOUGHT TO END THE FEUD

DEPORTATION OF THOSE RESPONSIBLE FOR CONTINUATION OF FIGHTING

(By United Press) New York, Oct. 20.—All efforts at mediation in the tong war in the East have failed, and the next step must be Federal intervention and deportation of those responsible for continuation of the murderous feud, Inspector Alfred F. Brough of the Chinese Bureau of the immigration service declared today.

With word of a murder of a Chinese in Detroit, the latest victim of the rivalry of the On Leong and Hip Sing tongs, there was fresh rivalry and activity by police and detectives here to prevent an outbreak of vengeance.

Leaders of the On Leong refused to meet those of Hip Sing's in a peace parley this week-end. As a result Inspector Brough announced he will exert all his influence to bring deportation into play and to end the strife.

Any Chinese found carrying weapons illegally will be made liable to deportation as "dangerous radicals," he said, and it may be possible even to resort to wholesale deportations of tong leaders.

Dr. Sze, Chinese minister to Washington, sailed for Europe to attend a narcotic conference at Geneva, expressing fear that the tong war in the East was far from over. The peace parley signed at Washington affected only the District of Columbia, he explained.

It developed today that the tong war has a Canadian angle, and an investigation has been begun at Ottawa. Reports are that it was the "sequel" in connection with the smuggling of Chinese across the Canadian border into the United States that led to the first killing in the present phase of the feud.

He had no time for such law violators and from the bench he hurled denunciations at them as he meted out their sentence.

His service has been in Duluth, St. Paul, Minneapolis, Mankato, Fergus Falls and Winona. He retired from the bench July 1, 1923.

During his 20 years on the federal bench Judge Morris maintained a reputation for rigid enforcement of the laws, imposing many strict penalties. Since enactment of the Volstead prohibition enforcement law he earned for himself the fear of bootleggers because of the severe sentences he imposed.

He had no time for such law violators and from the bench he hurled denunciations at them as he meted out their sentence.

His service has been in Duluth, St. Paul, Minneapolis, Mankato, Fergus Falls and Winona. He retired from the bench July 1, 1923.

JUDGE REPORTED "A GOOD DEAL BETTER"

Rochester, Minn., Oct. 20.—Judge Page Morris is "a good deal better" today, his nurse at St. Mary's Hospital said. Judge Morris, who retired after 20 years' service on the federal bench, was operated on October 2 by Dr. William Mayo.

11 INDICTMENTS CHARGED GRAND LARCENY OF MONEY

FORMER AUDITOR OF INSURANCE COMPANY OF ST. PAUL PLEADS NOT GUILTY

FORMER EMPLOYERS ESTIMATE THEIR LOSSES AT \$100,000

(By United Press) St. Paul, Oct. 20.—Roy A. Balsley, former treasurer and auditor for the Cushing & Driscoll insurance agency, today pleaded not guilty to eleven indictments charging grand larceny. Through his attorney he reserved the right to withdraw his plea on any of the indictments. He is alleged to have taken huge sums of money from his employers in the last four years. Specifically he is alleged to have taken approximately \$5,000 at various times but his employers estimated the total probably would be twenty times that amount.

Harry Peterson, county attorney, told Judge Charles Bechhoefer that friends of Balsley had threatened to interfere with the prosecution if the case was brought to trial. He demanded that the grand jury investigate his charges.

Balsley for many years was an insurance man in Springfield, Ill.

LITIGATION OVER NAVAL OIL LANDS WORTH MILLIONS

GOVERNMENT SUIT AGAINST E. L. DOHENY TO BREAK NAVAL RESERVE LEASE

LANDS IN QUESTION LOCATED IN CENTRAL CALIFORNIA

(By United Press) Los Angeles, Oct. 20.—After a suspension of 24 hours, the government suit against E. L. Doheny seeking to break the Elk Hill naval reserve lease given to the Pan-American Oil company by former Secretary of the Interior Fall will get under way tomorrow morning.

The suit was scheduled to open this morning but an opposing law and motion calendar in Federal Judge Paul J. McCormick's court caused the short postponement.

The action involves oil properties worth at least \$100,000,000 situated in central California.

SHENANDOAH BATTLES STORM

NEAR FRISCO WAS IN GRASP OF RAIN AND WIND STORM

(By United Press) San Francisco, Oct. 20.—The dirigible Shenandoah was fighting her way southward from Camp Lewis, Wash., to San Diego, Calif., today in the teeth of a rain and wind storm. Head winds were encountered near Cape Mendocino, California, increasing as she proceeded southward.

After rounding Point Arena, Calif., she struck a gale and rain.

Commander Zachary Landsdowne of the Shenandoah radioed headquarters here that it would be impossible to reach San Francisco before late afternoon.

Geese and Pillows

An idea of the number of geese that are planned to supply feathers for pillows may be gained from the fact that the feathers on 90,000 geese were used for the pillows of a hotel recently opened.

CHANCELLOR MARX ASKS TO DISSOLVE GERMAN REICHSTAG

(By United Press) Berlin, Oct. 20.—Chancellor Marx and his cabinet have given up as hopeless their attempts to solve the government crisis without the dissolution of the Reichstag and today decided to ask President Ebert to dissolve parliament.

The president approved the cabinet's course when the request was made and it is likely that dissolution will take place immediately.

EBERT ISSUES THE PROCLAMATION

Berlin, Oct. 20.—President Ebert today issued a proclamation dissolving the German Reichstag.

POINTS IN THE BRITISH ELECTION ARE REVIEWED

BUSINESS INTERESTS WATCH POSSIBILITY OF TARIFF REDUCTION

GROWTH OF THE INDEPENDENT MOVEMENT IN U. S. SURPRISES BRITISH

(By United Press) London, Oct. 20.—Although the suddenness and bitterness of the domestic election has largely eliminated British interest in the United States campaign, nevertheless there is sufficient similarity in the issues to intensify interest as soon as the domestic political situation is known October 29.

Business interests are watching the possibility of a tariff reduction, although there is no reason to hope seriously that a democratic or independent victory would lead to an early revision, but it would make possible a tariff bill designed to benefit the farming classes, which would raise the price of wheat to British consumers. Thus there is little prospect of benefit seen on that score.

The growth of the independent movement in the United States has surprised close followers of world politics, while casual readers expressed astonishment at the "sweep of radicalism in America," which is regarded as the world's most prosperous country.

Economists contend that unemployment and high taxation in Great Britain justify radical thrusts here, but except for the general worldwide political swing to the left there is little apparent reason for the radicalism in the United States at present, unless Americans are convinced that the highest point in prosperity has been reached and are therefore avoiding a receding.

The Manchester Guardian today declared the labor success in 1923 and 1924 have deeply impressed America, especially because of evidence that British labor and bolshevism are far apart.

Moreover, the laborites' record in office has quieted widespread fear of their doctrine, thereby stimulating American third party movements and weakening the Coolidge cause.

SUGAR BEET ACREAGE LARGER

MINNESOTA PLANTINGS 4 TIMES LARGER THAN IN 1920

(By United Press) St. Paul, Minn., Oct. 20.—Minnesota this year produced four times the acreage of sugar beets it had in 1920, according to N. J. Holmberg, commissioner of agriculture, today.

About 7,000 were formerly planted, mostly in the southern counties, while this year's figures, just complete, show 28,000 acres planted in 37 counties.

STANDARD OIL COMPANY FILES REPLY IN SUIT

SAYS IT IS NOT ENGAGED IN ANY COMBINATION IN RESTRAINT OF TRADE

DOES NOT MONOPOLIZE THE GASOLINE "CRACKING" PROCESS

(By United Press) Chicago, Oct. 20.—The Standard Oil company of Indiana is not engaged in any combination or conspiracy in restraint of trade, nor is it attempting to monopolize the gasoline "cracking process," according to a reply filed here today to the government suit against the Standard Oil company and 50 other companies.

The company invented the "cracking" process and might have lawfully kept it to itself, the reply states. Instead it licensed other manufacturers to use it, thereby increasing the amount of gasoline produced and keeping the price to consumers lower than it would have otherwise been, the answer stated.

The "pooling" charges made by the government is admitted by the company, but the real purpose was to protect the manufacturers and not to restrain trade, the company declared.

PENNSYLVANIA PASSENGER JUMPS TRACK, NONE KILLED

THE ACCIDENT HAPPENED NEAR LONGFELLOW, PA.

RELIEF TRAINS RUSHED OUT FROM HARRISBURG

(By United Press) Philadelphia, Oct. 20.—The Commercial Express, passenger train number 26 on the Pennsylvania railroad between St. Louis and New York, was derailed at Longfellow, Pa., today.

All the cars of the train left the track, the diner completely overturned and three Pullman sleepers plowed over the edge of an embankment.

A number of persons were injured and relief trains have been sent to the scene from Harrisburg and other points on the middle division of the road.

A Pullman section was dispatched from Harrisburg with physicians.

MILL CITY GANG CRACKS 8 SAFES

LOOT RUNS TO \$2,000, DAMAGE TO OFFICES IS MUCH MORE

(By United Press) Minneapolis, Oct. 20.—A safe cracking gang made the rounds of the Producers' Exchange building last night and cracked eight safes. They broke into every office that looked as if it might be productive.

The total loot was estimated to be around \$2,000, but damage to offices will amount to much more. Dials were taken off all the safes.

Four other safes were tapped in other sections of the city, possibly by the same gang, police said.

Sousa's Band Dedicates Auditorium in Memphis

Memphis, Tenn., Oct. 20.—The new \$2,000,000 Memphis auditorium was dedicated by Sousa's band last night.

More than 20,000 persons filled the new auditorium twice yesterday to hear the band, and it is estimated that twice that number were turned away.

BURGLARS MAKE RICH HAUL OF WINONA JEWELRY

(By United Press) Winona, Minn., Oct. 20.—Burglars obtained \$5,000 worth of rings, watches and jewelry from the show cases and windows of the Allyn-Morgan jewelry store here Saturday night. The robbery was not discovered until late Sunday. Entrance was made through a transom.

About a month ago burglars entered the Alfred Beinhorn jewelry store in the same manner and obtained loot valued at \$1,000.

U. S. SUPREME COURT NOTABLE DECISIONS MADE

HOLDS CONSTITUTIONAL SECTION OF CLAYTON ACT PRESCRIBING TRIAL BY JURY

FOR STRIKERS CHARGED WITH CONTEMPT OF COURT

(By United Press) Washington, Oct. 20.—The United States Supreme Court today ruled constitutional the section of the Clayton Act which prescribes trial by jury for strikers charged with contempt of court.

It was held that railway strikers under the Clayton Act are entitled to trial by jury when they are charged with violation of an injunction.

Sam Michaelson, Dan Cuilen and eight other striking employees of the Chicago, St. Paul, Minneapolis & Omaha Railway company, were convicted of contempt of court in the Federal district court for the western district of Wisconsin during the 1922 shopmen's strike. Trial by jury was denied them and they appealed to the supreme court.

OHIO LICENSE TAX ON FOREIGN CORPORATIONS

Washington, Oct. 20.—The United States Supreme Court today held that the Ohio license tax on foreign corporations doing business in the state was unconstitutional.

Suit to test the validity of the statute was brought by the Airway Electrical Appliance company. Incorporated in Delaware, it had established a Toledo branch.

"The inevitable effect of the act is to tax interstate commerce," Judge Butler said in reading the opinion of the court.

WILL RECESS FROM OCT. 20 TO NOV. 17

Washington, Oct. 20.—The Supreme Court today announced that it would recess from October 20 to November 17.

ACCIDENTAL SHOOTINGS CAUSES TWO DEATHS

St. Paul, Oct. 20.—Accidental shootings caused two deaths in and near St. Paul Sunday.

George Schrier, 12, died early today from injuries sustained when a rifle being loaded by Ludwig Tschida discharged. The bullet passed through George's lung and into his abdomen. An operation last night failed to locate the bullet. The Tchida boy was released here to go to school this morning before police learned of the shooting. They went to school to get him and he was held for further investigation.

Fred Hrachovina, 21, died suddenly after the discharge of a shotgun in his back. He was in a boat with Joseph Yarnish who started to take a quick shot at some ducks and discharged the gun accidentally.

'Ma' Ferguson Sends No Greeting Yet to Mrs. Ross of Wyoming

Cheyenne, Wyo., Oct. 20.—Mrs. Nellie Taylor Ross, democratic gubernatorial candidate in Wyoming, has received thousands of telegrams of congratulation from without the state, but not a word from "Ma" Ferguson of Texas. Unconsciously these two women have become rivals in politics—rivals for the honor of becoming first among the sex to occupy a gubernatorial chair.

POPULATION EXCHANGE IS BEING RUSHED

GREEKS HUSTLED OFF WITHOUT BRINGING ALONG THEIR BELONGINGS

OLD MEN, WOMEN AND CHILDREN PRODDED ALONG ROADS BY ARMED CONVOYS

(By United Press) Constantinople, Oct. 20.—At the point of the bayonet, routing their victims from bed, Turkish police have taken matters of the exchange of population with Greece into their own hands and marched 3,000 Greeks into imprisonment in the historic fortress of the Seven Towers.

The Greeks, who were hustled off without being permitted to bring along their belongings included many who were not to be exchanged but their protests fell upon deaf ears.

A child suffering from smallpox was dragged from his bed and taken to the fortress. Old men, women and children were prodded along the road by armed convoys, and in one instance a baker's boy, his apron still white with flour, was hurried off to prison.

The Greek population of Constantinople is terror-stricken as the result of the action of the police. The latter claim the Greeks seized belong to a category slated for exchange and that they had delayed too long after obtaining passports. Many of the prisoners have no passports, however.

Strong protests have been made to the mixed inter-allied commission which has charge of the transfer of Greeks to Greece in return for Turks to Turkey, but the commission has been unable to check the arrests.

SILK STOCKINGS COUPLED IN THE WAGE RAISE ASKED

FILED WITH RAILROAD LABOR BOARD IN CHICAGO TODAY

AVERAGE WAGE OF \$2,000 ANNUALLY FULLY REQUIRED FOR FAMILY OF FIVE

(By United Press) Chicago, Oct. 20.—Demand for wages high enough to enable them to buy several pairs of silk stockings for their wives a number of times each year are made in a request for increased pay on file with the railroad labor board here today.

The Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees declare that they do not want the increase for themselves but that their wives should have the silk raiment.

The silk stocking wage demand is supplementary to a request filed with President E. H. Fitzgerald for a salary increase asked last week.

At the present rate of pay, the clerks contend, the average wife can afford new silks only "once in a hundred years."

"An average wage of at least \$2,000 a year is necessary to provide the barest essentials of independent living for a family of five in America today," the wage boost request says.

"A man can build up a defensive attitude against the opinion of other people," the request states, "but women cannot develop such a protection against this feeling when not well-dressed."

ernatorial candidate in Wyoming, has received thousands of telegrams of congratulation from without the state, but not a word from "Ma" Ferguson of Texas. Unconsciously these two women have become rivals in politics—rivals for the honor of becoming first among the sex to occupy a gubernatorial chair.

SOUTH CAROLINA SHAKEN BY EARTHQUAKE

PIEDMONT DISTRICT IS AGITATED TODAY

TREMORS FELT IN SPARTANBURG AND GREENVILLE COUNTIES

THOUSANDS AROUSED FROM SLUMBER IN EARLY MORNING HOURS

(By United Press) Spartanburg, S. C., Oct. 20.—The Piedmont district of South Carolina was severely shaken today by an earthquake. Tremors were felt in towns and cities in Spartanburg and Greenville counties.

Thousands were aroused by the disturbances which occurred shortly after 3:30 a. m. and continued several minutes.

Window panes rattled and pictures toppled from the walls. The center of the disturbance was reported between Greenville and Pickens, where the disturbances were most violent, and strange rumblings were heard.

Residents at Pickens ran from their homes terrified.

Towns which reported disturbances included Anderson, Greer, Easley, Liberty and Union.

The quake was generally felt within a radius of 100 miles of Spartanburg.

ATHENS, GEORGIA, REGISTERS SHOCK

Athens, Ga., Oct. 20.—An earthquake was recorded on the seismograph at the University of Georgia at 3:50 a. m. today, the first shock registered since 1890.

CHESTER EXPERIENCED 2 SHOCKS IN MORNING

Chester S. C., Oct. 20.—Two distinct earthquake shocks awakened residents here at 3:30 a. m. this morning. The disturbances came close together and lasted about 60 seconds.

HENDERSONVILLE, N. C., ROCKED BY TREMORS

Hendersonville, N. C., Oct. 20.—Violent earth tremors rocked Hendersonville at 3:30 a. m. today. Houses were shaken.

ASHEVILLE, N. C., FELT SHARP MOVEMENTS

Asheville, N. C., Oct. 20.—Severe earth shocks were felt here at 3:30 a. m. today, the tremors, lasting several minutes, consisted of a series of sharp movements.

LITTLE HOPE FOR RECOVERY OF PAGE MORRIS, AGED JURIST

Rochester, Oct. 20.—Slight hope is held for the recovery of Page Morris, retired veteran of the United States district court bench in Minnesota, who is at St. Mary's hospital, Rochester, under care of Dr. William Mayo.

His wife and daughter are at his bedside.

Mr. Morris is 71 years old.

For three months his illness has been serious. About two weeks ago he was brought from California to Rochester for an abdominal operation. Since that time there has been some improvement in his condition, but because of his advanced age it is feared that a second operation, which soon will be necessary, cannot be performed.

Judge Morris was born in Lynchburg, Va., June 30, 1853. He was educated in a private school and at William and Mary college. He was graduated from Virginia Military Institute in 1872.

After his marriage to Miss Elizabeth Strahan he served as instructor in mathematics at several eastern institutions, later being admitted to the bar at Lynchburg, and in 1886 removing to Duluth.

For three years he engaged in private law practice. He was municipal judge for five years, beginning in 1889. He served as city attorney for one year. In August, 1895, he became judge of the 11th judicial district and resigned a year later when

Turks Use Bayonets on Greek Exchange Victims

ENFORCEMENT OF LIQUOR LAWS IS MORE EFFECTIVE

(By United Press) Washington, Oct. 20.—A complete "victory of law and order over outlawed liquor traffickers" is in prospect, the federal prohibition unit said today in a statement covering the 39 months of Commissioner Haines' administration.

Enforcement is becoming more effective every day, the statement said.

Genuine liquor now is almost impossible to obtain.

MEDIATION HAS FAILED IN THE EASTERN TONG WAR

FEDERAL INTERVENTION MAY BE SOUGHT TO END THE FEUD

DEPORTATION OF THOSE RESPONSIBLE FOR CONTINUATION OF FIGHTING

(By United Press) New York, Oct. 20.—All efforts at mediation in the tong war in the East have failed, and the next step must be Federal intervention and deportation of those responsible for continuation of the murderous feud, Inspector Alfred F. Brough of the Chinese Bureau of the immigration service declared today.

With word of a murder of a Chinese in Detroit, the latest victim of the rivalry of the On Leong and Hip Sing tongs, there was fresh rivalry and activity by police and detectives here to prevent an outbreak of vengeance.

Leaders of the On Leong refused to meet those of Hip Sing's in a peace parley this week-end. As a result Inspector Brough announced he will exert all his influence to bring deportation into play and to end the strife.

Any Chinese found carrying weapons illegally will be made liable to deportation as "dangerous radicals," he said, and it may be possible even to resort to wholesale deportations of tong leaders.

Dr. Sze, Chinese minister to Washington, sailed for Europe to attend a narcotic conference at Geneva, expressing fear that the tong war in the East was far from over. The peace parley signed at Washington affected only the District of Columbia, he explained.

It developed today that the tong war has a Canadian angle, and an investigation has been begun at Ottawa. Reports are that it was the "sequel" in connection with the smuggling of Chinese across the Canadian border into the United States that led to the first killing in the present phase of the feud.

He had no time for such law violators and from the bench he hurled denunciations at them as he meted out their sentence.

His service has been in Duluth, St. Paul, Minneapolis, Mankato, Fergus Falls and Winona. He retired from the bench July 1, 1923.

Judge Morris is "a good deal better" today, his nurse at St. Mary's Hospital said. Judge Morris, who retired after 20 years' service on the federal bench, was operated on October 2 by Dr. William Mayo.

JUDGE REPORTED "A GOOD DEAL BETTER"

Rochester, Minn., Oct. 20.—Judge Page Morris is "a good deal better" today, his nurse at St. Mary's Hospital said. Judge Morris, who retired after 20 years' service on the federal bench, was operated on October 2 by Dr. William Mayo.

11 INDICTMENTS CHARGED GRAND LARCENY OF MONEY

FORMER AUDITOR OF INSURANCE COMPANY OF ST. PAUL PLEADS NOT GUILTY

FORMER EMPLOYERS ESTIMATE THEIR LOSSES AT \$100,000

(By United Press) St. Paul, Oct. 20.—Roy A. Balsley, former treasurer and auditor for the Cushing & Driscoll insurance agency, today pleaded not guilty to eleven indictments charging grand larceny. Through his attorney he reserved the right to withdraw his plea on any of the indictments. He is alleged to have taken huge sums of money from his employers in the last four years. Specifically he is alleged to have taken approximately \$5,000 at various times but his employers estimated the total probably would be twenty times that amount.

Harry Peterson, county attorney, told Judge Charles Bechhoefer that friends of Balsley had threatened to interfere with the prosecution if the case was brought to trial. He demanded that the grand jury investigate his charges.

Balsley for many years was an insurance man in Springfield, Ill.

LITIGATION OVER NAVAL OIL LANDS WORTH MILLIONS

GOVERNMENT SUIT AGAINST E. L. DOHENY TO BREAK NAVAL RESERVE LEASE

LANDS IN QUESTION LOCATED IN CENTRAL CALIFORNIA

(By United Press) Los Angeles, Oct. 20.—After a suspension of 24 hours, the government suit against E. L. Doheny seeking to break the Elk Hill naval reserve lease given to the Pan-American Oil company by former Secretary of the Interior Fall will get under way tomorrow morning.

The suit was scheduled to open this morning but an opposing law and motion calendar in Federal Judge Paul J. McCormick's court caused the short postponement.

The action involves oil properties worth at least \$100,000,000 situated in central California.

The growth of the independent movement in the United States has surprised close followers of world politics, while casual readers expressed astonishment at the "sweep of radicalism in America," which is regarded as the world's most prosperous country.

Economists contend that unemployment and high taxation in Great Britain justify radical thrusts here, but except for the general worldwide political swing to the left there is little apparent reason for the radicalism in the United States at present, unless Americans are convinced that the highest point in prosperity has been reached and are therefore avoiding a receding.

(By United Press) St. Paul, Minn., Oct. 20.—Minnesota this year produced four times the acreage of sugar beets it had in 1920, according to N. J. Holmberg, commissioner of agriculture, today.

About 7,000 were formerly planted, mostly in the southern counties, while this year's figures, just complete, show 28,000 acres planted in 37 counties.

STANDARD OIL COMPANY FILES REPLY IN SUIT

SAYS IT IS NOT ENGAGED IN ANY COMBINATION IN RESTRAINT OF TRADE

DOES NOT MONOPOLIZE THE GASOLINE "CRACKING" PROCESS

(By United Press) Chicago, Oct. 20.—The Standard Oil company of Indiana is not engaged in any combination or conspiracy in restraint of trade, nor is it attempting to monopolize the gasoline "cracking process," according to a reply filed here today to the government suit against the Standard Oil company and 50 other companies.

The company invented the "cracking" process and might have lawfully kept it to itself, the reply states. Instead it licensed other manufacturers to use it, thereby increasing the amount of gasoline procured and keeping the price to consumers lower than it would have otherwise been, the answer stated.

The "pooling" charges made by the government is admitted by the company, but the real purpose was to protect the manufacturers and not to restrain trade, the company declared.

PENNSYLVANIA PASSENGER JUMPS TRACK, NONE KILLED

THE ACCIDENT HAPPENED NEAR LONGFELLOW, PA.

RELIEF TRAINS RUSHED OUT FROM HARRISBURG

(By United Press) Philadelphia, Oct. 20.—The Commercial Express, passenger train number 26 on the Pennsylvania railroad between St. Louis and New York, was derailed at Longfellow, Pa., today.

All the cars of the train left the track, the derailed completely overturned and three Pullman sleepers plowed over the edge of an embankment.

A number of persons were injured and relief trains have been sent to the scene from Harrisburg and other points on the middle division of the road.

A Pullman section was dispatched from Harrisburg with physicians.

MILL CITY GANG CRACKS 8 SAFES

LOOT RUNS TO \$2,000, DAMAGE TO OFFICES IS MUCH MORE

(By United Press) Minneapolis, Oct. 20.—A safe cracking gang made the rounds of the Producers' Exchange building last night and cracked eight safes. They broke into every office that looked as if it might be productive.

The total loot was estimated to be around \$2,000, but damage to offices will amount to much more. Dials were taken off all the safes.

Four other safes were tapped in other sections of the city, possibly by the same gang, police said.

Sousa's Band Dedicates Auditorium in Memphis

Memphis, Tenn., Oct. 20.—The new \$2,000,000 Memphis auditorium was dedicated by Sousa's band last night.

More than 30,000 persons filled the new auditorium twice yesterday to hear the band, and it is estimated that twice that number were turned away.

BURGLARS MAKE RICH HAUL OF WINONA JEWELRY

(By United Press) Winona, Minn., Oct. 20.—Burglars obtained \$5,000 worth of rings, watches and jewelry from the show cases and windows of the Allyn-Morgan jewelry store here Saturday night. The robbery was not discovered until late Sunday. Entrance was made through a transom.

About a month ago burglars entered the Alfred Beinhorn jewelry store in the same manner and obtained loot valued at \$1,000.

U. S. SUPREME COURT NOTABLE DECISIONS MADE

HOLDS CONSTITUTIONAL SECTION OF CLAYTON ACT PRESCRIBING TRIAL BY JURY

FOR STRIKERS CHARGED WITH CONTEMPT OF COURT

(By United Press) Washington, Oct. 20.—The United States Supreme Court today ruled constitutional the section of the Clayton Act which prescribes trial by jury for strikers charged with contempt of court.

It was held that railway strikers under the Clayton Act are entitled to trial by jury when they are charged with violation of an injunction.

Sam Michaelson, Dan Cullen and eight other striking employees of the Chicago, St. Paul, Minneapolis & Omaha Railway company, were convicted of contempt of court in the Federal district court for the western district of Wisconsin during the 1922 shopmen's strike. Trial by jury was denied them and they appealed to the supreme court.

OHIO LICENSE TAX ON FOREIGN CORPORATIONS

Washington, Oct. 20.—The United States Supreme Court today held that the Ohio license tax on foreign corporations doing business in the state was unconstitutional.

Suit to test the validity of the statute was brought by the Airway Electrical Appliance company. Incorporated in Delaware, it had established a Toledo branch.

"The inevitable effect of the act is to tax interstate commerce," Judge Butler said in reading the opinion of the court.

WILL RECESS FROM OCT. 20 TO NOV. 17

Washington, Oct. 20.—The Supreme Court today announced that it would recess from October 20 to November 17.

ACCIDENTAL SHOOTINGS CAUSES TWO DEATHS

St. Paul, Oct. 20.—Accidental shootings caused two deaths in and near St. Paul Sunday.

George Schrier, 12, died early today from injuries sustained when a rifle being loaded by Ludwig Tschida discharged. The bullet passed through George's lung and into his abdomen.

An operation last night failed to locate the bullet. The Tschida boy was released here to go to school this morning before police learned of the shooting. They went to school to get him and he was held for further investigation.

Fred Hrachovina, 21, died suddenly after the discharge of a shotgun in his back. He was in a boat with Joseph Yarnish who started to take a quick shot at some ducks and discharged the gun accidentally.

'Ma' Ferguson Sends No Greeting Yet to Mrs. Ross of Wyoming

Cheyenne, Wyo., Oct. 20.—Mrs. Nellie Taylor Ross, democratic gubernatorial candidate in Wyoming, has received thousands of telegrams of congratulation from without the state, but not a word from "Ma" Ferguson of Texas. Unconsciously these two women have become rivals in politics—rivals for the honor of becoming first among the sex to occupy a gubernatorial chair.

POPULATION EXCHANGE IS BEING RUSHED

GREEKS HUSTLED OFF WITHOUT BRINGING ALONG THEIR BELONGINGS

OLD MEN, WOMEN AND CHILDREN PRODDED ALONG ROADS BY ARMED CONVOYS

(By United Press) Constantinople, Oct. 20.—At the point of the bayonet, routing their victims from bed, Turkish police have taken matters of the exchange of population with Greece into their own hands and marched 3,000 Greeks into imprisonment in the historic fortress of the Seven Towers.

The Greeks, who were hustled off without being permitted to bring along their belongings included many who were not to be exchanged but their protests fell upon deaf ears.

A child suffering from smallpox was dragged from his bed and taken to the fortress. Old men, women and children were prodded along the road by armed envoys, and in one instance a baker's boy, his apron still white with flour, was hurried off to prison.

The Greek population of Constantinople is terror-stricken as the result of the action of the police. The latter claim the Greeks seized belong to a category slated for exchange and that they had delayed too long after obtaining passports. Many of the prisoners have no passports, however.

Strong protests have been made to the mixed inter-allied commission which has charge of the transfer of Greeks to Greece in return for Turks to Turkey, but the commission has been unable to check the arrests.

SILK STOCKINGS COUPLED IN THE WAGE RAISE ASKED

FILED WITH RAILROAD LABOR BOARD IN CHICAGO TODAY

AVERAGE WAGE OF \$2,000 ANNUALLY FULLY REQUIRED FOR FAMILY OF FIVE

(By United Press) Chicago, Oct. 20.—Demand for wages high enough to enable them to buy several pairs of silk stockings for their wives a number of times each year are made in a request for increased pay on file with the railroad labor board here today.

The Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees declare that they do not want the increase for themselves but that their wives should have the silk raiment.

The silk stocking wage demand is supplementary to a request filed with President E. H. Fitzgerald for a salary increase asked last week.

At the present rate of pay, the clerks contend, the average wife can afford new silks only "once in a hundred years."

"An average wage of at least \$2,000 a year is necessary to provide the barest essentials of independent living for a family of five in America today," the wage boost request says.

"A man can build up a defensive attitude against the opinion of other people," the request states, "but women cannot develop such a protection against this feeling when not well-dressed."

ernatorial candidate in Wyoming, has received thousands of telegrams of congratulation from without the state, but not a word from "Ma" Ferguson of Texas. Unconsciously these two women have become rivals in politics—rivals for the honor of becoming first among the sex to occupy a gubernatorial chair.

50,000 IN LIFE-SAVING SERVICE OF RED CROSS

Additional 50,000 Water Safety Experts Probable Gain of Summer Campaign.

A boy watched an expert give a class a lesson in the way to revive a person unconscious from water immersion. The next day the boy tried it on a bathing companion and saved his life. Such a boy justifies all the effort and the cost of the Life-Saving Service, American Red Cross officials declare. The Red Cross method of restoring partly drowned persons is so simple that the continual large sacrifice of life must decrease as an informed public insists upon general instruction in prone pressure practice to induce respiration.

The Red Cross Life-Saving Service in every part of the country, summer and winter, is engaged in teaching this method as an integral part of swimming and life-saving. This service

vice has grown from a single expert in 1914 to a corps of almost 50,000 active life-savers. In this tenth year of the work it is predicted that fully 50,000 more experts will be eligible for membership in the corps. This large accession in a single year is confidently expected as the result of the campaign among 22,000 troops of Boy Scouts under a plan to qualify at least two life-guards in each troop.

During the past year 4,746 men, 3,374 women, 9,731 boys and girls successfully passed the rigid tests of the Red Cross—an increase of 5,331 over 1923. Intensive instruction is developing hundreds of qualified examiners for the Red Cross Life-Saving Corps, who supplement the teaching staff maintained by the national organization. The cause of water safety is therefore penetrating to new sections and eventually will cover all American territory.

Recognition of this Red Cross service for humanity is growing apace. At the request of the War Department every military training camp had life-saving instruction last summer. Municipalities have adopted the Red Cross course, public and private schools are offering it to students, business, civic and athletic organizations are promoting campaigns, and police departments are making it a part of the conditioning process for their recruits.

Volunteer life-savers throughout the country, the American Red Cross reports, are eagerly advancing the cause of water safety, 388 volunteers receiving medals for giving from 200 to 200 hours' service in two or three years. In addition 36 rescue bars to medals were awarded members of the Red Cross Corps who saved one or more lives during the year.

It is for the work and extension of life-saving that continued support through memberships is sought, and the American Red Cross urges all persons to join or renew membership during the enrollment campaign opening Armistice Day, November 11.

Annual Summons to Service
The annual nation-wide Roll Call of the American Red Cross to enroll members for 1925 will open on Nov. 11, the anniversary of that tense and never-to-be-forgotten Armistice Day six years ago, which silenced the crashing arms of the World War. The enrollment will continue for 17 days, through Thanksgiving Day, Nov. 27. Preliminary to the Roll Call period will come Red Cross Sunday, Nov. 9. During the 17 days set aside for the enrollment more than 3,500 Chapters of the Red Cross and their thousands of branches will invite the people to join the Red Cross or renew their membership.

Word's Real Meaning

When we say "going downstairs," we really mean, if the phrase is used rightly, "going up." "Down" is derived from the Saxon word "dun" which means a hill or upland. The opposite to "dun" is "a-dun" so what we should say when a descent is meant, is "going a-downstairs."

The enrollment will continue for 17 days, through Thanksgiving Day, Nov. 27. Preliminary to the Roll Call period will come Red Cross Sunday, Nov. 9. During the 17 days set aside for the enrollment more than 3,500 Chapters of the Red Cross and their thousands of branches will invite the people to join the Red Cross or renew their membership.

Word's Real Meaning When we say "going downstairs," we really mean, if the phrase is used rightly, "going up." "Down" is derived from the Saxon word "dun" which means a hill or upland. The opposite to "dun" is "a-dun" so what we should say when a descent is meant, is "going a-downstairs."

ACCIDENTS CAUSED BY HEAVY TRAFFIC

Gull Lake Road Was Scene of Several Automobile Collisions on Sunday

NO ONE WAS INJURED

Careless Driving Seems to Have Been Accountable For Most of The Trouble

The Gull lake road was the scene of several automobile accidents on Sunday. Many motorists took advantage of the fine weather and careless driving is said to have been accountable for the accidents.

Two Ford touring cars collided about a half mile west of the old Northern Pacific hospital at 7:30 o'clock Sunday evening. The one coming from the west, and driven by a man from Pillager, struck a Brainerd car, badly damaging both machines, but injuring none of the occupants. The Ford from Pillager had no lights, which is said to have been the cause of the accident. A man, his wife and baby were in the car, and in the excitement the mother and child were taken to the hospital, but an examination showed no injuries. The names of neither of the car owners could be learned.

Two cars tipped over near the Brainerd Country club on Sunday afternoon. One was a Ford, the other a Hupmobile. In turning out to pass other cars the drivers ran into the ditch at the side of the road, and the machines tipped in the loose sand. Neither was badly damaged, or the occupants injured. Passing motorists assisted in righting the machines and getting them back on the road.

A Ford, driven by a Mr. Richmond, of Pequot, turned turtle about four miles out on the Gull lake road, Sunday afternoon. The car is said to have been damaged but was put back on the road and returned to Pequot under its own power. The occupants escaped uninjured.

CONCORDIA SOCIETY

Mrs. Lena Newgard And Mrs. A. L. Koop Will Entertain This Evening

The Concordia society of the Bethlehem Lutheran church will meet this Monday evening at 8 o'clock sharp. Mrs. Lena Newgard and Mrs. A. L. Koop will entertain. A cordial invitation is extended to all friends to be present. An excellent program has been arranged, as follows:

Vocal solo—Dr. G. I. Badeaux.
Violin solo—Miss Geraldine Kiehl.
Duet—The Misses Esther Fogelstrom and Jennie Beck.
Reading—Mrs. A. M. Sorenson.
Vocal solo—William Anderson.
Piano solo—Miss Ida Peterson.
Saxophone duet—Ardin Miller and Rowland Jenkins.
Duet—The Misses Dagmar Johnson and Freda Eggen.

Kappa Delphian Chapter

The Kappa Delphian Chapter members appreciate the difficulties of the 'average citizen' studying the civil war in China as suggested in a recent Dispatch editorial.

Saturday's program lead them through a maze of Pharaohs with such names as Amenemhet, Ahmose, Thutmose, Hatshepsut, the earliest queen of history, Amenhotep, Seti, Ramses, Merneptah.

The coming programs will not be so difficult. The study of the manners and customs of a people appeal to the 'average citizen' more than their military exploits. But we need to know as much as possible about this background in order to appreciate their contributions to art and religion.

Mrs. Rasch, chairwoman of the advisory board, is the leader of the first meeting in November.

GARDEN FLOWER SOCIETY

County Association to Meet at Chamber of Commerce on Wednesday Afternoon

The Crow Wing Garden Flower society will hold a meeting of its members at the Chamber of Commerce on Wednesday afternoon at 3 o'clock. Anyone interested in better flowers are asked to attend this meeting.

The organization will be completed and other business may be considered.

A discussion of the best way to further flower growing in the county will be discussed. L. P. Hall of Bay Lake will be present and preside.

ADVANCEMENT IN MEMBERS' HANDS

Every Community Should Stop a Moment And Take Stock of Itself

CHURCH HAS PROGRAM TOO

Church Ministers to the Whole Man, Special Field of Activity is The Soul
(By Brainerd Ministerial Association)

Every community should stop a moment now and then and take stock of itself. Reflect upon the institutions it has, their value in terms of city life. See whether they are functioning in a healthful manner.

The advancement of any institution is in the hands of those whose it is. Every organization has its membership. The progress of that organization depends upon the thoughtfulness of its members. Every city has a great many organizations. Each has its special objects. Each makes its contribution to the city life. If one interested in each organization were writing, he would tell of the work it was doing and ask for a higher appreciation of its services.

We are writing for the church. It is an old organization with an illuminating history. Its founder is Christ. Its membership is Christian. It ministers to the whole man, but has for its special field of activity the soul. It deals with the soul and the souls' remedies. It has a program that is distinctive. Always virile, always progressive, always appealing to the needs of the people. Its power is in its founder. He was before the church. He brought it into being. He guides its destiny. The key to that power is prayer. To this end our Saviour taught us to pray, brought about every awakening through prayer, and continues to the present moment to honor prayer. Prayer is the church's opportunity. Prayer is the church's progress. Prayer is the assurance that the church will meet its responsibility. To this end, the church for centuries has set aside one night in the week for prayer, commonly known as prayer meeting night. We may change its name somewhat and call it church night, but the purpose is the same.

This meeting has been called the thermometer of the church, the church's dynamo, the church's power plant. To the church it is vital. Fortunate is the church whose membership appreciate it. In our community Thursday night is quite generally regarded as prayer meeting night. Because it is vital and because it has much to do with the churches' actual service to the community, we would ask the people of our city to have a high regard for it and to cooperate through your various organizations to keep it free for this distinctive purpose. And to avail yourselves of its privileges and help make it a mighty influence for our homes and community.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.—Adv.

RAYMUND KOCH PLEASING SOLOIST

Famous Baritone Inaugurates Season of Brainerd Musical Club

HAS FULL, RESONANT VOICE

His Charm of Manner and Personality Adds to Charm of His Songs

Sunday afternoon the Brainerd Musical club and those who resisted the lure of the wonderful weather listened to a program that more than repaid them for staying at home. Raymund Koch sang with an effortless ease that showed that long since had breath control or tone placing ceased to be one of his problems. With a full deep resonant voice, and a charm of manner that added to the charm of his songs, he pleased the audience gathered to hear him. His transition from grave to gay, from tender wistfulness to rollicking gaiety was easily made. Add to that a most remarkably good enunciation and anyone can see why his program was a joy to the listeners.

He sang five groups and a number of encores. His first group, which contained three foreign songs, ranged from the Si Trai Ceppi with a military swing to L'Angelus, which he sang with "muted" voice that let one hear the soft chiming of the bells in the distance.

The second group was from Schumann's "Poet's Love," and was sung with such a wide range of feeling that the audience was alternately near to tears and then rejoicing in the joy of the poet in his music. Mr. Koch seems to have in a remarkable

degree the ability to merge himself in the characters he portrays, so that you forget yourself and the singer and see the tattered juggler or the melancholy poet or the breezy Falstaff as the music of his voice brings them to your mind.

The other groups more equally pleasing. Especially interesting were his portrayal of the deep feeling in the Legend of the Sage Bush, the lovely tenderness of the Dream Tryst and the humanness of the House by the Side of the Road.

His encores showed as much variety as his regular program. On the steppes by chaminade gave the tragic note of the Russian music. The selection from Falstaff gave the mischievous humor of that famous man, and the "Tree" by Kilmer ended the program on a serious note. Not by any means least was the requested Big Brown Bear, which delighted not only one small boy in the audience, but also the grown ups.

The accompaniments to all the songs were in themselves very interesting, and the fact that they were so very well played by Mrs. Fremantell of Minneapolis added immeasurably to the pleasure of the afternoon.

Lucky Criminals

The Braganza, one of the largest diamonds in the world, was found by three criminals, who had been sent into exile among the cannibal tribes and wild beasts in the Brazilian interior. They took the stone to a priest, who turned it over to the governor. The gem became the glory of the crown jewels of Portugal, and the king, in gratitude, pardoned the exiles.

ALL-AMERICAN THINKING

IN spite of the temptations of the campaign, Calvin Coolidge cannot forget that he is President of the United States. He, at least, is not engaged in trying to conciliate this class or that at the almost inevitable expense of setting one class against the other. He will not look at America as a political patchwork torn into pieces to make a party flag, says the Chicago Tribune.

The Philadelphia address is a piece of American thinking—all-American thinking—founded on a ripe consideration of American history, which illuminates and fortifies American institutions and principles and binds Americans in a common national purpose.

Without partisan feeling or rhetoric, Mr. Coolidge has presented his American thought on the current proposals for beginning to abandon the American system of individual initiative and private enterprise. Quietly, with no more emphasis than his earnestness conveys, he sets forth the Socialist device of nationalization for what in actual practice it would be—namely: the establishment of huge bureaucracy, the management of our affairs by government officials and job hunters, and therewith the final and unescapable imposition upon us all, farmer, wage earner, clerk, or millionaire, of a huge burden of taxes, direct and indirect.

"When we recall," says Mr. Coolidge, "the appalling loss and the difficulties in the management of \$3,500,000,000 worth of ships, we should undoubtedly hesitate about taking on ten times that value in public utilities."

But more telling still is his treatment of the crux of the nationalization policy, the question of control: "With railways and electrical utilities under political control, the domination of a group would be so firmly entrenched in the whole direction of our government that the privilege of citizenship for the rest of the people would consist largely in the payment of taxes."

TRADE EXPANSION IN U. S.

EXPORTS for the 1924 period show \$165,000,000 increase, animal products increasing slightly, and some increases in flour and other agricultural items, with a marked increase in fruits, nuts and vegetables. The total of exports was \$3,105,000,000, the favorable balance being \$423,000,000, or an average of \$47,000,000 a month.

A striking characteristic of our trade was that while imports of manufactures ready for consumption accounted for about 20 per cent of the total, exports of those products made up 41 per cent of the total sales abroad, and it is on this class of goods that the greatest amount of time, labor and capital are expended. This means that the American laborer, manufacturer, miner, and producers generally of the raw materials get a chance at those materials all the way up the line, every man taking a profit in wages or sales in his contribution to the work represented by the finished materials. This, of course, is a very satisfactory condition of affairs. Under free trade, on the other hand, the tendency is for foreign capital, labor, etc., to work up crude materials purchased from us or elsewhere, and sell them in the open American market, displacing domestic wares, and thereby curtailing our own activities.

A steady increase has been recorded in our exports to Europe, notably to Germany, France, Italy, Spain, Russia, and the Netherlands. Sales to South America increased, particularly to Brazil, Colombia, Peru, Uruguay, and Venezuela, with decreases to Argentine and Chile. There was a large increase in sales to Oceania and Asia, every country listed being a better purchaser this year than last. To African countries sales increased \$5,000,000.

The Department of Commerce announces that "the expansion was the largest over the pre-war average of any country in the world," and that "the figures signified that the United States is taking a larger position in the world's foreign trade and is gaining a greater portion of new trade than any other nation."

IN no year since the Canadian government has operated the railroads of the Dominion have the roads had a surplus. The deficit, says the Oskaloosa, Iowa, Herald, has been carried by taxes on the people.

THE government estimates that the farmer is receiving 20 per cent more at the farm gate for grains than he received a year ago, says the Boston News Bureau. That this farmer prosperity is being translated into buying is shown by the rapidly mounting sales of large mail order concerns, some ranging 36 per cent greater than for the same month last year. These economic figures of fact mean much more than many political figures of speech.

PLEASANT FOR VISITORS

THE Waterloo, Iowa, Rotary club has a pleasant custom. The fellowship committee hands out cards to Rotarian and other hotel visitors bearing this invitation: "If time is hanging heavy on your hands today a member of the Waterloo Rotary club would like to take you for a ride around the city from 2 to 4 p. m. Just notify the hotel clerk prior to 11 a. m. and we will have a car ready for you."

MANY a boy, first going to school, remembers failing in love with his teacher. And this has now occurred in real life, leading on to matrimony. Miss Grace Monahan, 33 years old, a school teacher of Waltham, Mass., was married recently in Boston to Norman F. Coolbroth, age 22, who had been one of her first pupils.

WHEN Chicago starts anything, it goes into all details with carefulness and usually is successful. A five days' pre-election school of citizenship will be held in the city hall beginning on Monday and instruction will be given in casting ballots on the various propositions to be voted on.

ALL dressed up and no place to go was the quandary in which the Shenandoah found herself. The big dirigible arrived at Camp Lewis early Saturday morning in a heavy fog and she had to keep circling around until late in the afternoon when anchorage was effected.

Dirigible ZR-3 Circling Towering Woolworth Building After Atlantic Flight From Germany

Coming out of the early morning haze, the giant airship built at the Zeppelin works for the U. S. Navy received a noisy welcome as it flew low over New York harbor and then over the city. The shrieking of harbor craft whistles was the signal for the city's tens of thousands to crane neck and cheer as it passed over the narrow down-town streets or rushed to house-tops as it continued its course up-town and toward Lakhurst, N. J.

RED CROSS DUTY TO AID VETERANS

Spends Nearly Four Millions in Year to Lessen Burdens of Disabled Soldiers.

SERVES 63,700 IN HOSPITALS

Every Case Is Given Individual Service—Assists Families of These Men Everywhere.

Washington.—The need of individual assistance by ex-service men and their families from the Red Cross is as pressing today as it was immediately after the end of the World War. For six years this work has been foremost of all Red Cross services, and in emphasizing the steady public support of this work the Red Cross National Headquarters urges the largest enrollment this year during the membership campaign opening on Armistice Day, November 11.

Nearly four million dollars of Red Cross funds spent for disabled veterans and their dependents during the year ended June 30 last presents some idea of the magnitude of this work. The current year, it is estimated, will call for still further disbursements of funds for the reason that the Red Cross, through more than 3,500 chapters in as many communities in the United States, has been called upon to help the ex-service men in making out their applications for the adjusted compensation granted in the so-called bonus law.

59,767 Soldier Cases a Month

The Red Cross work for the disabled soldier is designated "home service," for it gives individual attention to the man and his family approximating the interest and loving care of the home. Such service in the hospitals, camps, soldiers' homes and sanatoria, averaged 33,951 cases a month during the year. Assistance to ex-service men and their dependents averaged 59,767 cases a month. In addition, the Red Cross in the last twelve months provided 33,000 recreation and entertainment events in the hospitals and camps.

Thus the Red Cross, symbolized as the "Greatest Mother," still watches over these many thousands of men, comforts them, helps to lighten the tedium of their physical reconstruction, and in their homes lifts some of the burdens from their "own people."

Work in Communities Increases

The home service of the Red Cross was the most pressing duty of 2,603 chapters, an increase of 182 communities where problems affected by the war veteran's condition required solution through immediate and intelligent assistance. The chapters alone expended some \$2,000,000 in this work.

The transient disabled soldier, usually suffering from disability or tuberculosis, is almost everywhere a grave problem. From national funds the past year \$173,076.36 was expended in helping the chapters to care for these wandering men.

According to government report there are 4,800 veterans in civilian institutions, and in the national homes for soldiers the completion of the

creasing. The large groups of patients whose claims have been disallowed, of veterans of foreign wars, and the great number of men permanently resident in these institutions call for Red Cross work which cannot be avoided nor denied.

Definite Service to 73,700

Of a total of \$4,500 ex-service men in hospitals and other institutions 73,700 were rendered a definite and specialized service by the Red Cross. In a single month 4,135 new cases were presented and a total of 20,125 was acted upon—figures which serve to illustrate the magnitude of the information and claims service engaging the attention of Red Cross workers. New veteran legislation amending the War Risk act which extends many additional rights to disabled ex-service men will reopen thousands of cases and require still greater Red Cross service.

When Congress granted a charter to the American Red Cross it charged the organization with the duty to act as "the medium of communication between the American people and their Army and Navy." This responsibility to the enlisted men and their families is met every year without restriction. Serves Men on Active Service

The extent of this Red Cross activity during the last year embraced a total of 195,245 cases. There were 36,995 separate soldiers' and sailors' claims; 29,316 investigations of home conditions; 11,121 cases related to discharges, furloughs, etc. Assistance was given in 29,338 instances for personal, business or family problems; 744,220 visits were made to the sick or disabled, and nearly 40,000 letters and telegrams dispatched to the homes of enlisted men.

From June to September at the numerous military training camps the Red Cross provided information and home service to the trainees, also instruction in First Aid and Life Saving. The entertainment and recreation events at the various Army and Navy hospitals reached nearly 9,500 during the year, and occupational therapy in nine Naval hospitals gave constructive and beneficial results and occupied the time of patients in the making of useful and ornamental things.

ALL-AMERICAN THINKING

IN spite of the temptations of the campaign, Calvin Coolidge cannot forget that he is President of the United States. He, at least, is not engaged in trying to conciliate this class or that at the almost inevitable expense of setting one class against the other. He will not look at America as a political patchwork torn into pieces to make a party flag, says the Chicago Tribune.

The Philadelphia address is a piece of American thinking—all-American thinking—founded on a ripe consideration of American history, which illuminates and fortifies American institutions and principles and binds Americans in a common national purpose.

Without partisan feeling or rhetoric, Mr. Coolidge has presented his American thought on the current proposals for beginning to abandon the American system of individual initiative and private enterprise. Quietly, with no more emphasis than his earnestness conveys, he sets forth the Socialist device of nationalization for what in actual practice it would be—namely: the establishment of huge bureaucracy, the management of our affairs by government officials and job hunters, and therewith the final and unescapable imposition upon us all, farmer, wage earner, clerk, or millionaire, of a huge burden of taxes, direct and indirect.

"When we recall," says Mr. Coolidge, "the appalling loss and the difficulties in the management of \$3,500,000,000 worth of ships, we should undoubtedly hesitate about taking on ten times that value in public utilities."

But more telling still is his treatment of the crux of the nationalization policy, the question of control: "With railways and electrical utilities under political control, the domination of a group would be so firmly entrenched in the whole direction of our government that the privilege of citizenship for the rest of the people would consist largely in the payment of taxes."

TRADE EXPANSION IN U. S.

EXPORTS for the 1924 period show \$165,000,000 increase, animal products increasing slightly, and some increases in flour and other agricultural items, with a marked increase in fruits, nuts and vegetables. The total of exports was \$3,105,000,000, the favorable balance being \$423,000,000, or an average of \$47,000,000 a month.

A striking characteristic of our trade was that while imports of manufactures ready for consumption accounted for about 20 per cent of the total, exports of those products made up 41 per cent of the total sales abroad, and it is on this class of goods that the greatest amount of time, labor and capital are expended. This means that the American laborer, manufacturer, miner, and producers generally of the raw materials get a chance at those materials all the way up the line, every man taking a profit in wages or sales in his contribution to the work represented by the finished materials. This, of course, is a very satisfactory condition of affairs. SALVATION ARMY WORK INCREASES

GREATER FACILITIES PROVIDED TO CARE FOR POOR AND UNFORTUNATE

The work of the Salvation Army in the Northern Division, which includes Minnesota, North and South Dakota, has been increased approximately 15 per cent during the past year, according to a statement issued by Colonel William S. Barker at division headquarters, in Minneapolis.

During the year, six new corps have been installed, bringing the total in the three states to 42. The new corps are Fergus Falls, Hibbing, Faribault, Deadwood, Little Falls and Brookings.

In the same period of time Salvation Army property in the division has been increased by \$188,000, making for greater facilities to care for the poor and unfortunate. New buildings include those constructed at Duluth and Devils Lake, and others purchased at Mandan, Red Wing and Williston.

A new building was constructed for the Industrial Home in Minneapolis at a cost of \$50,000, and an addition was made to the Women's Home and Hospital, St. Paul, at a cost of \$40,000.

National headquarters announced that during the year ending September 30, 1,634,269 needy human beings were given help by the Salvation Army in the United States.

GOLDEN RULE SUNDAY, DEC. 7

New York, Oct. 20.—With the cooperation of religious leaders of all denominations throughout the United States, the Near East Relief has inaugurated its campaign for the second observance of International Golden Rule Sunday on December 7th. More than twelve hundred persons, all of them representatives of society, church and labor circles ate a four cent meal at the Hotel Roosevelt on September 25th, when the campaign was launched.

The setting aside of one day for the practice of the Golden Rule is the idea of Charles V. Vickrey, general secretary of the Near East Relief and President of the International Near East Association. At a recent meeting of the Association in Geneva, Switzerland, representatives of more than twenty nations outlined plans for cooperative action. In the United States, President Coolidge has given the idea his endorsement, and officials and public leaders in other countries have followed.

The chief purpose of the day, said Mr. Vickrey today is to focus world wide attention on the need for further educational and welfare work among the orphans of the Near East, forty thousand of whom are now receiving care at the hands of the Near East Relief that largely must be discontinued unless adequate resources are provided during the next three months. A personal survey by Mr. Vickrey of the refugee camps of Greece and investigation by other relief workers on the field indicate the presence of thousands of additional orphans and half orphans in the refugee camps of Greece, Syria and Palestine who are in need of help and must be looked after during the winter, if they are to survive the cold weather.

"The Golden Rule, if observed conscientiously, is the greatest force for international peace the world can ever know," Mr. Vickrey says. "Golden Rule Sunday can set this force in motion. For centuries out of the Near East have come the devastating wars which have changed history and ruined the destinies of nations. It is still the breeding place of war and a potential menace to modern civilization. Education, especially that which emphasizes peace and good will, is the only sure antidote. The flexible minds of the children, who are the future leaders of their people, offer the most fertile field for the cure.

"Golden Rule Sunday offers a means for producing the funds necessary to continue the educational work among the children of the Near East, in which America has played a leading part for so long. In addition, if properly observed, it will create a world wide atmosphere for peace and good will, the value of which cannot be underestimated.

"People are to be asked on Golden Rule Sunday to serve a simple meal, such as that which is served daily in the orphanages of the Near East, and then, while sharing the frugality of others, to remember them out of their own good fortune and bounty."

Sneezing Superstitions

Among the ancients sneezing to the right was considered fortunate and to the left unlucky.

(Editorial from Duluth, Minn., Herald, Oct. 11)

Opening the Door to Tyranny

The reason for the situation which Mr. La Follette seeks to change by his proposal to let congress override the judgment of the supreme court is very simple.

The makers of the Constitution wanted to build a government that would last, and under which the people's rights would be safe.

They feared to put power in any branch of government that would enable that branch to assume dangerous control over the other branches.

Hence the admirable balance between the executive, the judicial and the legislative branches of government which is the very heart of the American system.

Human experience has proved only too often the reality of the peril thus avoided. And that peril is as real today as it was then.

FOR NO BODY OF MEN IS FIT TO BE TRUSTED WITH UNCHECKED POLITICAL POWER.

Senator La Follette would unsettle this balance and make congress—the legislative branch—supreme in this government. What would that mean? This:

Given a congress so overwhelmed by passion and intolerance, growing out of such abnormalities of public thought as often come about in time of war or in periods of "religious" hatred, for instance, that it had the WILL, here are some of the things that congress could do DESPITE the Constitution and the courts, not one of which it could do if the balance of power remains where it is.

That congress could pass laws regulating religion in any way it chose, or restricting religion in any way it chose. It could prescribe any religion it chose, or it could ban any religion it chose.

That congress could abridge the freedom of speech in any manner that happened to strike its fancy.

If it had a radical majority, it could shut up conservative talk by law.

If it had a reactionary majority, as it might in some surge of reaction from too much radicalism, it could shut up radical or even progressive advocates by law.

That congress could restrict the right of public assemblage to assemblages of citizens who agreed with it.

It could suppress the right of petition to the government for redress of grievances.

It could deprive the citizens of their right to be secure in their "persons, houses, papers and effects, against unreasonable searches and seizures."

It could take away from the citizens the right to a trial by jury.

It could take away from the citizens their present right not to be deprived of life, liberty or property without due process of law.

By depriving the citizens of their right not to have "private property taken for public purposes without just compensation," it could open the way for any form of confiscation it chose.

In a word, a congress given the power that Mr. La Follette proposes could make a scrap of paper of the Bill of Rights.

And of course it could make any kind of law it chose curtailing the power of the presidency or the courts.

Is it possible that a congress could come into power that would do any of these things? There is no limit, except such limit as a Constitution duly upheld by the courts may impose, upon what greed for power, hate, bigotry and intolerance will tempt men to do when the unchecked way is open to do it.

History is full of cases where power, such power as Mr. La Follette asks for congress, has turned men's heads and robbed them of sanity and judgment.

Is it wise for any citizen to vote for a leader who, however good his intent may be, is reckless enough to propose a revolution so dangerous as it would be to deprive the citizens of their rights under the Constitution, and to leave those rights utterly subject to a body of men so human, so prone to error and temptation, as congress?

PAID ADVERTISEMENT—Inserted by Lord and Thomas, Chicago, for which \$9.50 is to be paid.

U. S. STEEL MAKERS ARE FACING A BIG COMBINE

Washington, Oct. 20.—The steel industry of the United States will feel the effects of the Dawes plan for reparations settlement when it is in complete operation and the huge manufacturing of France, Belgium and Germany are functioning, Secretary of the Treasury Mellon believes.

Mellon takes the stand that steel products, manufactured at a low labor cost, will cut into the export and seaport markets of the American industry.

However, rail transportation will preclude competition with steel produced and marketed inland in the United States. The Secretary likens the situation to that which existed before the war, except for the tremendous post-war growth of the Franco-Belgian industries, and sees no real hardship to the American producer beyond a necessary readjustment to competitive conditions which have not existed for some time.

Mellon believes the demand for structural steel, as Europe rehabilitates itself under the Dawes plan, will make up in a measure for the added and renewed competition of Germany after a 10 year lull.

The necessity of Germany to pay reparations (and the only way she can do this is to profit on her manu-

factures) will increase the production costs, so as to remove the market on the status of the already flourishing French and Belgian steel makers.

Those in close touch with European situation see a coalition of the steel making industries of France, Belgium and Germany. They point to the likelihood of a "marriage" between French iron ore from Alsace-Lorraine, now a part of that country, and German coke from the Ruhr. Belgium, in this triple commercial alliance, would furnish ore, too, from its territory adjacent to Lorraine.

With Franco-Belgian occupation of the Ruhr, the steel industry and export business of these countries grew by leaps and bounds. Now the Dawes settlement takes the coke from them and makes it obviously necessary for a combination of the three countries. If France and Belgium are to retain the position they attained in the steel business after the war.

Good and Bad Luck

To balance "unlucky" superstitions there are many "lucky" ones. If, when dressing, one accidentally puts on a garment inside out, an unexpected gift will shortly arrive. To carry about a coin with a hole in it is to secure one's self against misfortune, and if swallows are permitted to build near a house, the owner need not trouble to take out a fire insurance policy, for fire will never attack a dwelling thus protected.

SALVATION ARMY WORK INCREASES

GREATER FACILITIES PROVIDED TO CARE FOR POOR AND UNFORTUNATE

The work of the Salvation Army in the Northern Division, which includes Minnesota, North and South Dakota, has been increased approximately 15 per cent during the past year, according to a statement issued by Colonel William S. Barker at division headquarters, in Minneapolis.

During the year, six new corps have been installed, bringing the total in the three states to 42. The new corps are Fergus Falls, Hibbing, Faribault, Deadwood, Little Falls and Brookings.

In the same period of time Salvation Army property in the division has been increased by \$188,000, making for greater facilities to care for the poor and unfortunate. New buildings include those constructed at Duluth and Devils Lake, and others purchased at Mandan, Red Wing and Williston.

A new building was constructed for the Industrial Home in Minneapolis at a cost of \$60,000, and an addition was made to the Women's Home and Hospital, St. Paul, at a cost of \$40,000.

National headquarters announced that during the year ending September 30, 1,634,269 needy human beings were given help by the Salvation Army in the United States.

GOLDEN RULE

SUNDAY, DEC. 7

New York, Oct. 20.—With the cooperation of religious leaders of all denominations throughout the United States, the Near East Relief has inaugurated its campaign for the second observance of International Golden Rule Sunday on December 7th. More than twelve hundred persons, all of them representatives of society, church and labor circles ate a four cent meal at the Hotel Roosevelt on September 25th, when the campaign was launched.

The setting aside of one day for the practice of the Golden Rule is the idea of Charles V. Vickrey, general secretary of the Near East Relief and President of the International Near East Association. At a recent meeting of the Association in Geneva, Switzerland, representatives of more than twenty nations outlined plans for cooperative action. In the United States, President Coolidge has given the idea his endorsement, and officials and public leaders in other countries have followed.

The chief purpose of the day, said Mr. Vickrey today is to focus world wide attention on the need for further educational and welfare work among the orphans of the Near East, forty thousand of whom are now receiving care at the hands of the Near East Relief that largely must be discontinued unless adequate resources are provided during the next three months. A personal survey by Mr. Vickrey of the refugee camps of Greece and investigation by other relief workers on the field indicate the presence of thousands of additional orphans and half orphans in the refugee camps of Greece, Syria and Palestine who are in need of help and must be looked after during the winter, if they are to survive the cold weather.

"The Golden Rule, if observed conscientiously, is the greatest force for international peace the world can ever know," Mr. Vickrey says. "Golden Rule Sunday can set this force in motion. For centuries out of the Near East have come the devastating wars which have changed history and ruined the destinies of nations. It is still the breeding place of war and a potential menace to modern civilization. Education, especially that which emphasizes peace and good will, is the only sure antidote. The flexible minds of the children, who are the future leaders of their people, offer the most fertile field for the cure.

"Golden Rule Sunday offers a means for producing the funds necessary to continue the educational work among the children of the Near East, in which America has played a leading part for so long. In addition, if properly observed, it will create a world wide atmosphere for peace and good will, the value of which cannot be underestimated.

"People are to be asked on Golden Rule Sunday to serve a simple meal, such as that which is served daily in the orphanages of the Near East, and then, while sharing the frugality of others, to remember them out of their own good fortune and bounty."

Sneezing Superstitions

Among the ancients sneezing to the right was considered fortunate and to the left unlucky.

(Editorial from Duluth, Minn., Herald, Oct. 11)

Opening the Door to Tyranny

The reason for the situation which Mr. La Follette seeks to change by his proposal to let congress override the judgment of the supreme court is very simple.

The makers of the Constitution wanted to build a government that would last, and under which the people's rights would be safe.

They feared to put power in any branch of government that would enable that branch to assume dangerous control over the other branches.

Hence the admirable balance between the executive, the judicial and the legislative branches of government which is the very heart of the American system.

Human experience has proved only too often the reality of the peril thus avoided. And that peril is as real today as it was then.

FOR NO BODY OF MEN IS FIT TO BE TRUSTED WITH UNCHECKED POLITICAL POWER.

Senator La Follette would unsettle this balance and make congress—the legislative branch—supreme in this government. What would that mean? This:

Given a congress so overwhelmed by passion and intolerance, growing out of such abnormalities of public thought as often come about in time of war or in periods of "religious" hatred, for instance, that it had the WILL, here are some of the things that congress could do DESPITE the Constitution and the courts, not one of which it could do if the balance of power remains where it is.

That congress could pass laws regulating religion in any way it chose, or restricting religion in any way it chose. It could prescribe any religion it chose, or it could ban any religion it chose.

That congress could abridge the freedom of speech in any manner that happened to strike its fancy.

If it had a radical majority, it could shut up conservative talk by law.

If it had a reactionary majority, as it might in some surge of reaction from too much radicalism, it could shut up radical or even progressive advocates by law.

That congress could restrict the right of public assemblage to assemblages of citizens who agreed with it.

It could suppress the right of petition to the government for redress of grievances.

It could deprive the citizens of their right to be secure in their "persons, houses, papers and effects, against unreasonable searches and seizures."

It could take away from the citizens the right to a trial by jury.

It could take away from the citizens their present right not to be deprived of life, liberty or property without due process of law.

By depriving the citizens of their right not to have "private property taken for public purposes without just compensation," it could open the way for any form of confiscation it chose.

In a word, a congress given the power that Mr. La Follette proposes could make a scrap of paper of the Bill of Rights.

And of course it could make any kind of law it chose curtailing the power of the presidency or the courts.

Is it possible that a congress could come into power that would do any of these things? There is no limit, except such limit as a Constitution duly upheld by the courts may impose, upon what greed for power, hate, bigotry and intolerance will tempt men to do when the unchecked way is open to do it.

History is full of cases where power, such power as Mr. La Follette asks for congress, has turned men's heads and robbed them of sanity and judgment.

Is it wise for any citizen to vote for a leader who, however good his intent may be, is reckless enough to propose a revolution so dangerous as it would be to deprive the citizens of their rights under the Constitution, and to leave those rights utterly subject to a body of men so human, so prone to error and temptation, as congress?

U. S. STEEL MAKERS ARE FACING A BIG COMBINE

Washington, Oct. 20.—The steel industry of the United States will feel the effects of the Dawes plan for reparations settlement when it is in complete operation and the huge manufacturing of France, Belgium and Germany are functioning. Secretary of the Treasury Mellon believes. Mellon takes the stand that steel products, manufactured at a low labor cost, will cut into the export and seaport markets of the American industry.

However, rail transportation will preclude competition with steel produced and marketed inland in the United States. The Secretary likens the situation to that which existed before the war, except for the tremendous post-war growth of the Franco-Belgian industries, and sees no real hardship to the American producer beyond a necessary readjustment to competitive conditions which have not existed for some time.

Mellon believes the demand for structural steel, as Europe rehabilitates itself under the Dawes plan, will make up in a measure for the added and renewed competition of Germany after a 10 year lull.

The necessity of Germany to pay reparations (and the only way she can do this is to profit on her manu-

factures) will increase the production costs, so as to remove the market on the status of the already flourishing French and Belgian steel makers.

Those in close touch with European situation see a coalition of the steel making industries of France, Belgium and Germany. They point to the likelihood of a "marriage" between French iron ore from Alsace-Lorraine, now a part of that country, and German coke from the Ruhr. Belgium, in this triple commercial alliance, would furnish ore, too, from its territory adjacent to Lorraine.

With Franco-Belgian occupation of the Ruhr, the steel industry and export business of these countries grew by leaps and bounds. Now the Dawes settlement takes the coke from them and makes it obviously necessary for a combination of the three countries, if France and Belgium are to retain the position they attained in the steel business after the war.

Dress Ornaments in Fall Fashion

Single Motif Features Dec- oration of Majority of French Models.

Dress ornaments of new design are many, some unusual, and some very beautiful. The style is tuned to a single motif—a distinguishing note of a costume on almost all of the better models, writes a fashion correspondent in the New York Times. On all of the draped gowns this is essential, and on the tunic blouse, done after the Chinese type of overgarment, slashed at each side, an ornament adds a chic effect. On many of the new wraps, the coats and capes for afternoon or evening, an ornate clasp, or cabochon is made to serve as a fastening.

One flashing ornament is a round flat medallion, formed of a little mirror bordered with a delicate fretwork of metal set with rhinestones. A clasp intended to be added to the coat is large and rich in color, of thin olive wood traced in a pattern of dull gilt. Many other motifs are being made from as many different materials, from Italian tooled leather and Egyptian scarabs to the most dazzling things set solid with stones. Some of these are huge, in the most fantastic patterns, and form an important detail in an evening gown.

The latest and most popular combination in ornaments is of onyx and brilliants. There is an elegance in it which appeals to women whose taste is for exclusive styles, and it is one which is not successfully imitated. A gown of black velvet or satin, which has somewhere in its architecture a bit of onyx traced over with diamonds or rhinestones, is never commonplace. Other delightful things like these are being shown in brooches, pendants and earrings—which are longer than ever before. One pair seen in the studio of

New Tunic Blouse Having Leaf Design Applique in Brown.

An exclusive jeweler is made in the form of two long tassels, the diamond tips of which touch the shoulder—engagingly graceful and altogether chic. These jewels or onyx and pearl are but one of the unique fancies of the season. But they are of sufficient importance to form a chapter all their own.

Godets Used to Vary Straight Tunic Blouse

A few of the prominent designers are inclined to vary the uncompromisingly straight tunic blouse by introduced godets, observes a fashion writer in the New York Times. These add nothing to the width of the garment proper, but create a flare at the bottom. Paquin is unaggressive in this variation, and the same tendency is shown in the first models seen from Yteb and from Martial et Armand. A prophecy now in the air looks for a return to the fashions of 1890 or thereabouts, when the gown was tight to the knee, and below that was clumsily trimmed with ruffles or platings. In earlier days nothing was heard of the silhouette, and the much-corseted figure presented an undulating line, in contrast to the "tube" of these days. But clever artists must be trusted to harmonize the new features and the revivals of old-time ideals.

So many new colors, or colors by other names, have been introduced during the last year that the possibilities of novelty would seem to be exhausted. But there are emphasized in the early fall styles such shades as burnt russet, caramel, rust, henna, basket green, tiber green and venetian green.

Variety in Fabrics

The wardrobe of today is vastly more interesting than it was some years ago. For one thing, instead of a few materials there are many, and fabrics have in many cases changed places and been put to uses hitherto undreamed of. The revival of flannel has been an outstanding point in the modes of the season. First only plain colored flannel was seen, but recently the gayest blazer striped flannel has appeared, and from all indications seems destined to play an important part in sports fashions.

THESE FOUR SISTERS DIDN'T HAVE TO CHANGE THEIR NAMES WHEN THEY MARRIED FOUR BROTHERS

Left to right in the group shown are Mr. and Mrs. Otis P. Stoner, Mr. and Mrs. Lester E. Stoner, Mr. and Mrs. William G. Stoner and Mr. and Mrs. Harry R. Stoner. Four Stoner brothers married four Stoner sisters. The families, who

live at Hanover, Pa., are not related although their names are identical. William and Ida Marcella Stoner started the family marriage ball rolling in 1915. Two years later Harry and Gertrude married and just two years after that Lester and Joanna were joined in wedlock. The youngest of the brothers waited until September 22 last to go to the Rev. J. W. Reinecke who had performed the ceremony for the other Stoners. There is still work for Cupid to do as there are two unmarried Stoner brothers and sisters.

HOW GREAT MEN MAKE LOVE AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Wheeler Syndicate, Inc.)

ANNE WINTHROP AND ADAM WINTHROP

HERE is a surprising Puritan love letter written by the mother of John Winthrop, first governor of Massachusetts, to his father, Adam: "I have received, right dear and well beloved, from you this week a letter, though short, yet very sweet, which gave me a lively taste of those sweet and comfortable words which always, when you be present with me, are wont to flow most abundantly from your loving heart—whereby I perceive that be you present with me or absent from me you are ever one toward me, and your heart remaineth always with me. Wherefore, laying up this persuasion of you in my breast, I will most assuredly, the Lord assisting me by His grace, bear always the like loving heart unto you again, until such time as I may more fully enjoy your loving presence, but in the meantime I will remain as one having a great inheritance, or rich treasure, and it being by force kept from him, or he being in a strange country and cannot enjoy it, longeth continually after it, sighing and sorrowing that he is too long bereft of it, yet rejoiceth that he hath so great a treasure pertaining to him and hopeth that one day the time will come when he shall enjoy it and have the whole benefit of it. So I, having a good hope of the time to come, do more patiently bear the time present and pray send me word if you be in health and what success you have. I commend you in my daily prayers as I am sure you do me; the Lord keeps us now and ever. Amen. "Your loving wife, "ANNE WINTHROP."

Battery Operates Watch

In France an ingenious jeweler has made a watch that is one of the most unusual articles yet turned out from the watchmaker's bench. It is a watch that is run by a wet battery, which is inclosed in the watch case, and is said to keep perfect time.

NOTICE OF SPECIAL SCHOOL MEETING AND ELECTION

NOTICE IS HEREBY GIVEN, That a special meeting and election of Brainerd School District, will be held on November 4th, 1924, at the several voting places in the City of Brainerd, Minnesota, designated for the holding of the general election on the same day, at which there will be submitted to the voters of the School District the following questions:

First Question: Shall the Board of Education be authorized to acquire the following property lying immediately north and adjacent to Kingwood Street, between Tenth Street No. and Bluff Avenue, described as follows: Lots numbered 1 to 5, both inclusive, and Lots numbered 16 to 24, both inclusive, of Block 82 First Addition to the Town (now City) of Brainerd, and Lots numbered 19 to 25, both inclusive, of Block numbered 82, of the Town (now City) of Brainerd, as a school site and erect a school building thereon?

Second Question: Shall the Board of Education be authorized to acquire the following property located immediately north and adjacent to Oak Street, between Sixth Street, So. and Seventh Street, So., and described as follows: Block Numbered 129 of the Town (now City) of Brainerd, as a school site and erect a school building thereon?

The site covered by the first question is the so-called "fill site" and the site covered by the second question is the so-called "6th St. site." Voters will be asked to vote at the election in favor of the site which they favor, and also against the site to which they are opposed, and an opportunity will be given voters who are opposed to both sites, to so indicate. The site to be selected will be the one receiving the greater number of votes in its favor, provided it receives a majority of the votes cast at the election on the questions.

The polls will open at 6 o'clock A. M. and close at 9 P. M. of the same day.

By Order of the Board of Education, LOUIS F. HOHMAN, Clerk.

Dated October 15, 1924.

Championship Auto Race Pictured in "The Speed Spook" at the New Park Tonight, Tuesday and Wednesday

When "The Speed Spook," featuring Johnny Hines, comes to the New Park Theatre tonight, patrons will be treated to one of the most unusual automobile races ever filmed on the screen of the New Park its patrons was filmed at the famous 250-mile international auto classic at the Altona Speedway last June, which was the cynosure of all racing enthusiasts. Pictured in these scenes the racing fan will view these speed spooks going at the phenomenal rate of 114½ miles per hour, a new world's speed record. Every bit of the race was filmed so that when "The Speed Spook" is thrown on the screen of the New Park its patrons will be able to view one of the greatest automobile races in the history of the sport.

Johnny Hines, the dynamic star and featured player of "The Speed Spook," will be seen in the race, driving along with the best of them and holding his own with the rest of the daredevil drivers, among whom were Jimmy Murphy, Tommy Milton, Harry Hartz, Ira Vail, Jerry Wunderlich, Antoine Mourre and other celebrities of the track, who have taken the places held by such previous speed kings as Barney Oldfield, Rickkenbacker and Hearne.

Thrills and Heart Throbs in Ray Film at Lyceum

If you can sit through "Dynamite Smith," now showing at the Lyceum Theatre and not get thrills and heart throbs out of it, and weep a tear or two, you will never respond emotively to anything and you might as well stay at home and read the dictionary. Charles Ray, returned to Thomas H. Ince's supervision, is up to all his loved tricks and proves that he really meant it when he said he was returning to the old roles. Once more he is the youth handicapped in attaining his heart's desires by his shyness, but aided by his earnestness. He is once more the timid

man of untried courage.

The supporting cast is a wonder—Bessie Love could wring tears from a heart of stone as Violet. Wallace Beery as "Sluggo" Rourke is terrorizing, and Jacqueline Logan as the sweetheart is just right. Ralph Ince directed "Dynamite Smith" with a perfect understanding of its dramatic possibilities and of Charles Ray's talents. It remains at the Lyceum Theatre tonight only.

Dorothy Dalton and Jack Holt are Co-Stars in "The Lone Wolf" In transforming Louis Joseph Vance's popular story of love, romance and adventure, "The Lone

Wolf," into a thrilling photo drama which comes to the Lyceum Tuesday, S. E. V. Taylor, the famous writer and director, had the leading roles portrayed by the popular film stars, Dorothy Dalton and Jack Holt.

"The Lone Wolf" is a smashing, dashing, daring story of Louis Joseph Vance, with Holt appearing as the stellar figure. Miss Dalton portrays the role of Lucy Shannon, a trusted agent of the celebrated Parisian underworld society, known internationally as "The Pack."

AULGER BROS. STOCK COMPANY

Aulger Bros. to Make Their First
Visit to Brain-
erd

A. M. Aulger, business manager of the company, who is now in the city arranging for their engagement. The opening play will be "Saintly Hypocrites and Honest Sinners." A high class comedy drama by Chas. F. Harrison. This is Mr. Harrison's very latest offering and is entirely new to this territory, having just been released for stock engagements. Play-goers will be able to get a great deal of fun, at the same time absorbing a fine moral lesson in witnessing. "Saintly Hypocrites and Honest Sinners." The author delivers a vigorous attack upon the Hypocrites and Slandering Gossips and his wallop has a rich comedy slant. In fact the predominant feature of the piece is that it is a comedy, abounding in complications and situations that are sure to evoke hearty laughter and thereby prove an excellent evening's entertainment. Other plays in the Aulger Bros. repertoire include, "Papa Joe," "The Warning," "The Call of the Heart," "The Girl From Our Yonder," "The Dangerous Age" and "Facing the Music." Orchestra concert at 8:15 and the curtain rises promptly at 8:30. Admission 50c. Seats on sale at the theatre at 2 P. M. each day. One lady will be admitted free with each paid ticket on Monday night.

Penguin's Peculiarity

Penguins alone of all feathered creatures, walk about upright on land, as man does.

Dark Rings Under Eyes

For the relief of dark rings and blood-shot eyes there is nothing better than simple camphor, witchhazel, hydrastis, etc., as mixed in Lavoptik eye wash. The quick action is surprising. Eye cup free. Johnson's Pharmacy.—Adv.

What have you got at about \$40?

When that question is asked we don't reply orally—we answer by bringing out suits—keep on bringing out suits—and continue bringing out suits until you have said "enough."

In short—while \$40 is a rather short sum in most stores for anything worth wearing—at the John M. Bye Clothing Co.'s store it allows you to be as important and as exacting as though you had driven up in a Rolls Royce and said, "James, bring in those \$10,000 bills out of the back seat!"

Kuppenheimer and Sincerity Fall Suits \$30 to \$50
Oregon City Overcoats \$25 to \$50
Schoble Hats \$5 to \$9
Vassar Underwear \$2 to \$10
Bronne Shirts \$1.50 to \$8.50
O'Donnell Shoes - Leather Vests - Sport Shirts

NOTICE of SPECIAL SCHOOL MEETING AND ELECTION

NOTICE IS HEREBY GIVEN: That a special meeting and election of Brainerd School District, will be held on November 4th, 1924, at the several polling places in the City of Brainerd, Minnesota, designated for the holding of the general election on the same day, at which there will be submitted to the voters of the School District the following questions:

First Question: Shall the Board of Education be authorized to acquire the following property lying immediately north and adjacent to Kingwood Street, between Tenth Street No. and Bluff Avenue, described as follows: Lots numbered 1 to 9, both inclusive, and Lots numbered 16 to 24, both inclusive, of Block 82, First Addition to the Town (now City) of Brainerd, and Lots numbered 10 to 15, both inclusive, of Block numbered 82, of the Town (now City) of Brainerd, as a school site and erect a school building thereon?

Second Question: Shall the Board of Education be authorized to acquire the following property located immediately north and adjacent to Oak Street, between Sixth Street, 80, and Seventh Street, 80, and described as follows: Block Numbered 129 of the Town (now City) of Brainerd, as a school site and erect a school building thereon?

The site covered by the first question is the so-called "Bil site" and the site covered by the second question is the so-called "6th St. site." Voters will be asked to vote at the election in favor of the site which they favor, and also against the site to which they are opposed, and an opportunity will be given voters who are opposed to both sites, to so indicate. The site to be selected will be the one receiving the greater number of votes in its favor, provided it receives a majority of the votes cast at the election on the questions.

The polls will open at 6 o'clock A. M. and close at 9 P. M. of the same day.

By Order of the Board of Education,
LOUIS F. HOHMAN, Clerk.

Dated October 15, 1924.

Championship Auto Race Pictured in "The Speed Spook" at the New Park Tonight, Tuesday and Wednesday

When "The Speed Spook," featuring Johnny Hines, comes to the New Park Theatre tonight, patrons will be treated to one of the most unusual automobile races ever filmed on the screen of the New Park its patrons was filmed at the famous 250-mile international auto classic at the Altona Speedway last June, which was the cynosure of all racing enthusiasts. Pictured in these scenes the racing fan will view these speed spooks going at the phenomenal rate of 114½ miles per hour, a new world's speed record. Every bit of the race was filmed so that when "The Speed Spook" is thrown on the

Thrills and Heart Throbs in Ray Film at Lyceum

If you can sit through "Dynamite Smith," now showing at the Lyceum Theatre and not get thrills and heart throbs out of it, and weep a tear or two, you will never respond emotionally to anything and you might as well stay at home and read the dictionary. Charles Ray, returned to Thomas H. Ince's supervision, is up to all his loved tricks and proves that he really meant it when he said he was returning to the old roles. Once more he is the youth handicapped in attaining his heart's desires by his shyness, but aided by his earnestness. He is once more the timid

man of untried courage. The supporting cast is a wonder—Bessie Love could wring tears from a heart of stone as Violet. Wallace Beery as "Sluggo" Rourke is terrorizing, and Jacqueline Logan as the sweetheart is just right. Ralph Ince directed "Dynamite Smith" with a perfect understanding of its dramatic possibilities and of Charles Ray's talents. It remains at the Lyceum Theatre tonight only.

Dorothy Dalton and Jack Holt Are Co-Stars in "The Lone Wolf" In transforming Louis Joseph Vance's popular story of love, romance and adventure, "The Lone

Wolf," into a thrilling photo drama which comes to the Lyceum Tuesday, S. E. V. Taylor, the famous writer and director, had the leading roles portrayed by the popular film stars, Dorothy Dalton and Jack Holt.

"The Lone Wolf" is a smashing, dashing, daring story of Louis Joseph Vance, with Holt appearing as the stellar figure. Miss Dalton portrays the role of Lucy Shannon, a trusted agent of the celebrated Parisian underworld society, known internationally as "The Pack."

AULGER BROS. STOCK COMPANY

Aulger Bros. to Make Their First
Visit to Brain-
erd

A. M. Aulger, business manager of the company, who is now in the city arranging for their engagement. The opening play will be "Saintly Hypocrites and Honest Sinners." A high class comedy drama by Chas. F. Harrison. This is Mr. Harrison's very latest offering and is entirely new to this territory, having just been released for stock engagements. Play-goers will be able to get a great deal of fun, at the same time absorbing a fine moral lesson in witnessing "Saintly Hypocrites and Honest Sinners." The author delivers a vigorous attack upon the Hypocrites and Slandering Gossips and his wallops have a rich comedy slant. In fact the predominant feature of the piece is that it is a comedy, abounding in complications and situations that are sure to evoke hearty laughter and thereby prove an excellent evening's entertainment. Other plays in the Aulger Bros. repertoire include, "Papa Joe," "The Warning," "The Call of the Heart," "The Girl From Out Yonder," "The Dangerous Age" and "Facing the Music." Orchestra concert at 8:15 and the curtain rises promptly at 8:30. Admission 50c. Seats on sale at the theatre at 2 P. M. each day. One lady will be admitted free with each paid ticket on Monday night.

Penguin's Peculiarity

Penguins alone of all feathered creatures, walk about upright on land, as man does.

Dark Rings Under Eyes

For the relief of dark rings and blood-shot eyes there is nothing better than simple camphor, witchhazel, hydrastis, etc., as mixed in Lavoptis eye wash. The quick action is surprising. Eye cup free. Johnson's Pharmacy.—Adv't.

What have you got at about \$40?

When that question is asked we don't reply orally—we answer by bringing out suits—keep on bringing out suits—and continue bringing out suits until you have said "enough."

In short—while \$40 is a rather short sum in most stores for anything worth wearing—at the John M. Bye Clothing Co.'s store it allows you to be as important and as exacting as though you had driven up in a Rolls Royce and said, "James, bring in those \$10,000 bills out of the back seat!"

Kuppenheimer and Sincerity Fall Suits \$30 to \$50
Oregon City Overcoats \$25 to \$50
Schoble Hats \$5 to \$9
Vassar Underwear \$2 to \$10
Bronne Shirts \$1.50 to \$8.50
O'Donnell Shoes - Leather Vests - Sport Shirts

DOUBLE DROWNING NARROWLY AVERTED

Edwin Paulson and Donald Johnson
Pitched Into Platte Lake When
Boat Upsets

SAVED BY GEORGE TRENT, SR.

Taller Hunter Holds Companion's
Head Above Water, Both Nearly
Exhausted

Two young men, residents of Brainerd, narrowly escaped drowning in Platte lake on Sunday afternoon, and had it not been for the presence of mind of one of them, and the prompt assistance of George Trent, Sr., both victims might have filled a watery grave.

Edwin Paulson and Donald Johnson were hunting in Platte lake, using a small duck boat. Both attempted to stand up in one end of the boat, and it sunk, going to the bottom end first and remaining in that position.

The young men were thrown into the water, and the taller of the two managed to stand on the upper end of the boat with his head above water. He held his companion, who was shorter, high enough so that his nose was out of water, and called loudly for help.

Mr. Trent has a hunting lodge at Platte lake, and was spending the week end there. He heard the cries for assistance and rowed out through the reeds and rushes, nearly half a mile and rescued the young men, which was no easy task. The taller of the two thought that he was standing on some high ground in the lake, it is said, instead of on the end of the boat. Mr. Trent sounded the lake at that point, and found the water to be nine feet deep, with a soft mud bottom.

17 TO RECEIVE DIPLOMAS SOON

Brainerd Commercial College to Have
Graduation Exercises, Saturday
Evening, October 25

MISS R. J. ANDERSON PRINCIPAL
Enrollment For Fall Term Very Satisfactory, Being 35 New Students

Seventeen graduates of the Brainerd Commercial College will receive their diplomas at the semi-annual exercises to be held in the Iron Exchange hall on Saturday evening, October 25th. The majority of these graduates have already been placed in satisfactory positions.

A suitable program is being arranged for Saturday evening, and will consist of an address by a speaker yet to be selected, talks by several local residents, vocal and instrumental numbers.

Following the exercises, there will be a reception for graduates and new students of the college, and the balance of the evening spent in an informal party.

Miss Rosa J. Anderson is principal of the Brainerd Commercial College and Miss Velma Currier, assistant. The enrollment for the fall term has been very satisfactory, there being thirty-five new students.

The evening school, which started on October 1st, is a feature that is much appreciated by those who cannot attend during the day. These evening sessions are held on Monday, Wednesday and Friday of each week.

The college is just entering upon its ninth year in Brainerd, and prospects point to one of the most successful terms in the history of the school.

ANDREW H. OHMAN DIED

Aitkin Man Passed Away at a Local
Hospital Following an Operation Performed

Andrew H. Ohman, of Aitkin, passed away at 10:30 o'clock Sunday morning at a local hospital, death following an operation performed about two weeks ago.

Mr. Ohman was born in Sweden, and was seventy-five years of age. He had been a resident of Aitkin many years, following the stone masons trade. He is survived by his wife and three sons.

Friends may view the remains at the B. C. McNamara chapel until Wednesday morning. The funeral will be held from the Swedish Lutheran church at Aitkin on Wednesday afternoon, and interment made in the cemetery at that village.

ERVIN ANTHONY IN SUDDEN DEATH

Nokay Lake Lad Trips Over Fallen
Tree, Gun Discharges, Load
Enters Breast

BODY IS BROUGHT TO CITY

Funeral to be Held From Farm Home
on Thursday Afternoon

Ervin Anthony, oldest son of Mr. and Mrs. Phillip Anthony, residing in Nokay lake township, was accidentally killed late Sunday afternoon, when he tripped over a fallen tree. The body was not found until about eleven o'clock Monday morning, by a searching party that had been looking for him since the evening before.

Ervin, who is sixteen years of age, had gone hunting with several friends on Sunday afternoon. The young men separated and started through the woods. The others returned late in the afternoon, and when Anthony failed to appear, a searching party was organized.

The body was found just where the young man tripped over the fallen tree. The left foot was still caught in the crotch of the tree. From all appearances, he had fallen suddenly, and the gun which he was probably carrying on his shoulder had slipped down in front of him. The bark on the tree beside the body showed where the trigger of the gun had dragged and caught. The muzzle of the gun was lying against the boy's breast where the full charge had entered. Death is thought to have been instantaneous. The charge went through a double leather strap that held a knapsack, and through the heavy clothing that was worn. The gun was a twelve-gauge double barreled hammer gun.

The coroner was called and declared the death accidental. The body was brought to Brainerd to prepare it for burial.

The deceased is survived by his parents, who reside on the Rosenkrans farm, three brothers and three sisters, being Arthur, Quinn, Loyal, Harrie, Islay Maude and Nellie Marie all younger than Ervin, and all living at home.

The funeral will probably be held from the farm home on Thursday afternoon, and interment made in the Oak Grove cemetery.

OUT IN MONTANA

W. E. Dowlin, Nephew of Cod Kimball, Says It's All For Coolidge

The Billings Gazette, of Billings, Montana, gives the following publicity to the predictions of W. E. Dowlin as to the political situation in Montana. Mr. Dowlin is a nephew of Cod Kimball, pioneer resident of Crow Wing county, who lives near Cross lake.

President Coolidge will receive the four votes of Montana in the electoral college at Washington, in the judgment of W. E. Dowlin, chairman of the Republican state central committee, who is in the city on a political mission, as well as visiting with the members of his family.

"I predict that President Coolidge will carry Montana by a substantial plurality," said Mr. Dowlin. "Likewise, I believe that the entire Republican state ticket will prevail on November 4. Reports made to me since reaching Billings are to the same effect with respect to the Republican county ticket, all of which is very gratifying."

The chairman stated that it was agreed the race in Montana was between Coolidge and La Follette and that Little Davis sentiment had been developed. The better prices prevailing for farm products and a needed demonstration, once more, that Montana soils are highly productive, have resulted in offsetting much of the discontent that prevailed among the farmers last year. He therefore predicted that the farmers would be found returning to their first and favorite political love—the Republican party—next month.

Witching Number?

On Aug. 13, 1898, the city of Manila surrendered to the American army commanded by Gen. Wesley M. Merritt. Besides the 13 in the date, the numerals in the year added together, total 26, or twice 13, and the name Wesley Merritt contains 13 letters. The American land force in the engagement numbered 8,500 men and the Spanish garrison 13,000.

CAR THIEVES WORKING IN CITY

Ford Stolen From Louis Holsapple,
Fireman at Northern Pacific
Shops

WAS PARKED NEAR SHOP FENCE

Buick Car of Earl O'Brien Taken
From Curb Near The Park
Theatre

Automobile thieves seem to be working again in Brainerd, and two cars were stolen on Saturday.

The first was a Ford, belonging to Louis Holsapple, a fireman at the Northern Pacific shops, who resides at 927 South Tenth street. The car was parked near the shop fence, and was taken during Saturday afternoon. It was found later several blocks away, where it had been driven over an embankment and abandoned. It was not damaged in any way.

On Saturday evening, about ten o'clock a 1923 Buick touring car, belonging to Earl O'Brien was taken from the curb near the New Park theatre, while Mr. O'Brien was attending the show. He had the ignition key in his pocket, and it is thought that the thieves either had a duplicate key or rewired the car around the switch.

No trace of this car has as yet been found. The police were handicapped in their search for it by the fact that Mr. O'Brien did not know the number of his car, and could not get into the safe where he kept the license receipt until Sunday afternoon.

ELKS HARVEST HOME DANCE

Given on Friday Evening at Lum
Park Drew a Record Breaking
Crowd of Dancers

DECORATIONS ARE UNIQUE

Music Appealed to All, Encores Frequent, Temperature Resembled a June Night

The Elks harvest home dance on Friday evening, October 17, attracted a record breaking crowd and Lum park pavilion, uniquely decorated, was the mecca for young and old who found prepared a splendid evening of entertainment.

Hedstrom's seven piece orchestra outdid itself in its offerings, playing many new selections and being most generous in the encores. They were in costume in keeping with the harvest note and sat on bales of hay.

At each side of the orchestra, in corners of the hall, were corn shocks. Pumpkins with electrical insides gleamed in the moonlight dances. Autumn leaves in gay festoons vied with the purple and white colors of the Elks entwined about overhanging beams.

Floor arrangements were perfect. Parking space near the pavilion was at a premium. The soft drink stand did an enormous business. The dance was a success and reflects great credit on the committee in charge of the matter. All Brainerd was interested in the dance, for it is the first of a series of entertainments planned to raise money for Brainerd Elks lodge state convention fund. With the initial function a success, it augurs well for the success of the remainder.

STAY AT HOME VOTER IS SCORED

Mrs. Walter Marclay, Minneapolis
Speaker, to Handle Him With-
out Gloves

TO SPEAK IN CITY OCT 21

At Chamber of Commerce in Afternoon and Later Episcopal Church Dinner

(Contributed)
"Why do you women spend your precious time and strength in getting everybody out to vote? Would it not be better for ignorant voters to stay at home?"

The above question was put to Mrs. Walter Marclay, and her answer furnishes the headlines for an article on Mrs. Marclay's address on this subject in The Woman's Forum of Sept. 26th. This article states that: "Mrs. Marclay's answer is not that of the shallow optimist. It is a conviction based upon a thorough study of the history of world government and social economic made during the past five years, during two of which Mrs. Marclay was State Chairman of the Efficiency in Government Commission of the League of Women Voters."

Come to the Chamber of Commerce at 2:30 o'clock next Tuesday, Oct. 21st, and then follow Mrs. Marclay to the dinner at the Episcopal church parlors, where she will give a talk to the new voters, and you will go home convinced that it is the non-voter who is responsible for most of the corruption in our politics.

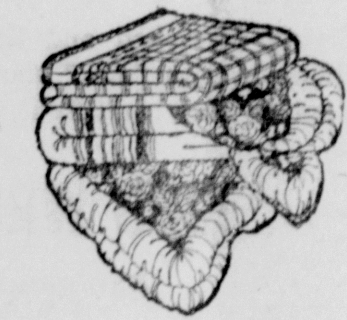

There seems to be a misapprehension regarding the Birthday Dinner, mentioned above, probably because stress has been laid upon the fact that it is to honor new voters. There will be a birthday table which will be free to the girls who have not yet cast their first vote—and who will do so in the coming election. But there are about eighty tickets to this dinner to be sold. The following

Make Your Money Make More Prosperity

Whatever helps Brainerd to prosper increases your own chances for prosperity. And one thing that makes a town prosperous is large bank deposits, which enable the bank to give proper support to farmers and business men.

Bank your money promptly at this safe, progressive state bank. By doing so you will help both yourself and your home community.

CITIZENS STATE BANK of Brainerd

"Oldest State Bank in Crow Wing County" 1889 1924

A MESSAGE

To Awaken the Dead and Quickened the Living!

Let no Man or Woman who reads this say they never had a chance to try the Hottest Coal that ever came to Brainerd.

You, who burn coal, what is it you ask?

FIRST, we take it, you demand something that gives you an abundance of Heat.

SECOND, you want a coal that is Pure and Free from Clinkers and Slate.

THIRD, you want something that is so lasting that you save both time and money.

FOURTH, you want a Coal that contains so little ash that it does away, once and for all, with this dirty nuisance and waste.

All four of these, and many more besides, are offered you in our famous

Standard Coal

Without a question this is the finest Coal mined. Don't worry through another winter with expensive, so-called cheap Coal, but do yourself a favor and order from

STANDARD LBR. CO.

SCANDAL DUE TO COMMERCIALIZED B. B.

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Oct. 20.—During the scandal that broke out just before the recent world's series, which resulted in the expulsion from organized baseball of Cozy Dolan and Jimmy O'Connell, the opinion was expressed that the world's series should be abolished.

Ban Johnson, president of the American League, raved that Commissioner Landis should have declared the New York Giants ineligible and substituted the Brooklyn Robins as the opponents of Washington, or that he should have called off the series.

John's views should not be given too much emphasis, however, as there is too much vindictive malice in him and he was talking more as a radical enemy of Landis than as a guardian of baseball. Johnson's wasn't such a purist in 1919 and 1920 when one of the teams in his league was involved in a mess and he shouldn't be any more willing to wield the club when a team in another league is involved.

It is an admitted fact that the temptation is becoming great for players of slow mentality and those of loose morals. Temptations are being offered because the game has been so highly commercialized. The club owners are responsible for that.

Instead of charging the highest price for tickets that the public would stand for and instead of grabbing every cent they can get from the players, they ought to give the players reason to believe that there is something in the business except dough.

The money-grabbing tactics of the club owners was shown this year when they refused to pay the players for the games played in the world's series. You might argue that it is foolish to suggest that the players should get a regular salary for working for the rich world's series prize, but perhaps the players feel differently about it. Whether the magnates are just or unjust in saving that little extra salary money they are, nevertheless, giving evidence to the players that they consider money first, last, and always.

When the players have to work under such conditions it is not strange that they might get the opinion that it is nothing but a money game, that there is no sport in it, and that the only offense against the ethics of their profession is to be caught at it. It was interesting to hear the various official comments that were made about the acts of Dolan and O'Connell in trying to bribe Heinie Sand, the Philadelphia shortstop.

"The appalling stupidity of it," was the reply of Commissioner Landis when he was asked what his reaction was.

"Just a couple of fools," Manager McGraw said.

Everyone agreed that it was a foolish piece of work. The idea was not sound and the execution was crude.

But why talk only about the foolishness of any such attempts? Why not call it by its right name?

ST. PAUL IS TO
PLAY SEATTLE
SEALS OF COASTST. PAUL IS CHAMPION OF THE
AMERICAN ASSOCIATIONSEALS ARE WINNERS OF THE
PACIFIC COAST PEN-
NANT

(By United Press)
St. Paul, Oct. 20.—The St. Paul champions of the American Association leave tomorrow noon for Seattle for a 9-game series with the Pacific Coast pennant winners. The supremacy of the class AA leagues will be decided.

The Seattle Seals, nosed out San Francisco and Los Angeles by a game and a half after a thrilling finish.

BRAINERD HIGH
DEFEATED BY CROSBY

The Brainerd High School football team met defeat at the hands of Crosby-Ironton last Saturday by a score of 24-0.

Johnstone of Crosby made an 87-yard run for a touchdown in the first quarter, after which Brainerd seemed to lose interest and found it impossible to make any gains to their own advantage. Details of the game will appear in tomorrow's Dispatch.

High Prices for Animals
The bureau of animal industry says that the highest price ever paid for a horse was \$265,000. This was a thoroughbred horse purchased by August Belmont from an Englishman. The highest price paid for a bull was \$100,000. There are several instances where dairy cows have been purchased for amounts over \$25,000.

"RED" GRANGE
LICKS MICHIGAN
SINGLE HANDEDRED-TOPPED HERO PROVES THE
EQUAL OF ALL HEROES OF
FOOTBALLFROM OPENING KICKOFF TO FIN-
ISH HE WAS MAKING
TOUCHDOWNS

Illinois Memorial Stadium, Urbana, Ill., Oct. 20.—In letters as brilliant as his red-thatched youthful head and as big as his 5 feet 10 of brawn, Red Grange went down as one of the immortals of Illinois when lone-handed he gave Illinois a magnificent victory over Michigan by a score of 29 to 14, on Saturday afternoon.

To a fevered mind that had been sent into delirium by the greatest individual performance ever seen upon any gridiron in a championship game, it is impossible to find words to describe the brilliance of Harold "Red" Grange, of Wheaton, Ill.

The plunk of a Michigan toe against the opening kickoff hardly had been heard when Grange had the ball on Illinois seven-yard line.

With a fan-like formation in front of him that worked like a snowplow, Grange was off tearing down the field. He overran his interference at the 50-yard line—or perhaps they had been bowled out of his way by the husky forwards of Michigan.

Past the midfield mark he went along, turning this way and that way, sneaking to the left and to the right, on and on until he had dashed 90 yards for a touchdown. Hardly had the applause died down from the Illinois stands and before the stupefied look had been removed from the faces of the Michigan rooters than Grange was off again.

Given the ball from an ordinary formation, Grange dashed down the field, sneaking as he had done before, sidestepping and dancing from right to left, the red-topped hero was off again and over the goal line for a 65-yard run to a touchdown.

The Michigan team was demoralized and the Michigan stands were speechless when Grange again took a pass from his quarterback and ran 56 yards to a third touchdown. Making fiction even stronger fiction, the "Red" was again away in a few minutes for a fourth touchdown. Rockwell, the Michigan quarterback, fumbled a punt on his 45-yard line and the huge Rokusek, the Illinois captain, was on the ball.

"Give it to Red" the Illinois gang must have said when they kuddled behind the line to catch signals that couldn't have been given any other way.

They gave the ball to Red and off he went again like a streak, running around and around the field, 40 yards for a touchdown.

They took Red out in the second period. He had done nobly and well, and there was a limit to human endurance. With Red on the sidelines Illinois didn't score in the second period.

He came back in the third and when Illinois reached the 12-yard line and wanted another touchdown, they called on Red, off he went again in and around, 12 yards for a touchdown.

Michigan was then massing the attack against Grange while thousands of Michigan rooters were on their knees praying—"stop that Grange"—and then on their feet the next minute demanding "stop that damn Grange."

In the fourth period when he had made several little runs totaling 40 yards and had helped to advance the

ball to Michigan's 12-yard line, he stepped out of his role and tossed a forward pass to Kassel for seven yards. Then he tossed another pass to Leonard and another touchdown was over the line.

It is but a matter of routine to tell that Michigan scored two touchdowns. Two touchdowns that might have been given to a valiant enemy by a gracious victor.—Duluth News Tribune.

NAT'L CHAMPIONSHIP
IN COOPER'S GRASPFRESNO RACE MAKES AWARD
POSSIBLE FOR DRIVER OF
STUDEBAKER SPECIAL

Earl Cooper's smashing victory in the Fresno 150-mile road race, in the track record time of 1:25:13, has given him a chance to win the A. A. National Championship for 1924.

Incidentally, it was Cooper's first race and victory since his marriage on Sept. 21 to Mrs. Jane N. Bailey, the golden-haired beauty from Troy, N. Y., whose tears at his misfortune at Indianapolis July 4, when a flat tire cost him first place after he had headed the field for 425 miles, attracted the famous driver's attention and led to the altar.

Cooper's chance at the national championship with the Studebaker Special comes through the most unfortunate accident which cost the life of universally loved Jimmy Murphy at Syracuse, N. Y. At the time of his death, Murphy had won 1,595 points.

Fresno, it has just been announced by Chairman Richard Kennerdell of the contest board of the A. A. A., gave Cooper 300 points, bringing his total score up to 980, which is 350 ahead of his nearest competitor, Comer, whose 550 points won at Fresno brought his score up to 630.

Scores of the leaders at Fresno, as announced by Chairman Kennerdell are: Cooper 300; Hill 160; Milton 90; Comer 50; McDonough 30.

Standings of the leaders now are: Murphy 1,595; Cooper 980; Comer 630; Hill 574; Corum 570; Fengler 563; Milton 461; Shafer 380; Hartz 356.

Two more races are to be driven before the 1924 season is closed and the championship is awarded.

On Oct. 25, at the new speedway at Charlotte, N. C., Cooper will face twenty-three starters in the elimination contests. This probably will be his hardest race since Indianapolis. With a victory at Charlotte, the national championship will be in his grasp.

The final race at Los Angeles Nov. 27, is looked upon as well within his reach, since it will be driven under conditions at which Cooper is an acknowledged master.

Original Daylight Saving

Daylight saving, as we know it, had its inception in England in 1907 in a book published by William Willett, entitled "The Waste of Daylight." A daylight-saving law was enacted in Great Britain in 1916, and in the following year in Denmark, Germany, Holland, Italy, France, Portugal and Australia.

GOPHERS AND
BADGERS IN
TIE GAME, 7-7OLD GRID RIVALS FAIL TO BREAK
THE DEAD-
LOCKBATTLE IN MADISON, WISCONSIN,
UNDER A HOT
SUN

Madison, Wis., Oct. 20.—The Badgers and Gophers, who fought a scoreless battle last year, again struggled through a tie game here Saturday afternoon under a hot sun.

The final score was 7 to 7. Abrahamson attempted a place kick for Minnesota from the 40-yard line one second before the whistle blew, but the ball went wide.

The Cardinals completely out played their foes in the first half, but the tables were turned in the second half.

Late in the first quarter, with the Badgers on the enemy 40-yard line, Harris passed to Leo Harmon, who eluded tacklers and raced 30 yards to a touchdown.

Smashing through the Minnesota line, the Cardinal backs carried the ball to the nine-yard line in the second quarter. Doyle Harmon attempted a drop kick, but the ball hit the crossbar and bounded back.

Penalties checked another Badger drive into enemy territory.

The turn of the game came early in the third quarter when Teckemeyer, Wisconsin center, passed the ball over D. Harmon's head and Gross recovered for Minnesota on the Badger eight-yard line.

The Northmen were stopped one foot from the goal line.

Toward the end of the quarter Lidberg and Schutte began ripping through the Cardinal line, carrying the ball from midfield until they finally pushed it over for a touchdown early in the fourth period.

Minnesota was unable to make any headway by the aerial route, Wisconsin intercepting four of the six attempts and the other two were incomplete. Lidberg and Schutte were the mainstays for Gopher gains. Leo Harmon and Captain Harris were first in Wisconsin play.—Duluth News Tribune.

Names Perpetuated

The "henry" is the practical unit of induction in the measurement of self and mutual induction. It was named in honor of Joseph Henry, who contributed greatly to the world's store of knowledge regarding electricity. In like manner was the watt, the practical unit of power or activity, named for James Watt, the mechanical engineer, famous for his improvements of the steam engine.

What People Talk About

In order to find out what the favorite topics of conversation are, someone has listened to 500 bits of chatter and classified them. "Business" was the popular topic with men, with "sports" next and "other men" ranked third, but with the women the subject of "men" ranked far ahead of anything else with "dress" second and "other women" third.

DEER HUNTERS--
You'll Have to Hurry

If your rifle needs any overhauling or repairing. Sights furnished and lined up by shooting at target. Bring in your "sick" shot guns, rifles and revolvers. If Captain Jack can't fix it, throw it away.

1256-11713pTRY SULPHUR ON
AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles' Mentho-Sulphur from any good druggist and use it like cold cream.—Adv't.

SCANDAL DUE TO COMMERCIALIZED B. B. "RED" GRANGE

By HENRY L. FARRELL
(United Press Sports Editor)

New York, Oct. 20.—During the scandal that broke out just before the recent world's series, which resulted in the expulsion from organized baseball of Cozy Dolan and Jimmy O'Connell, the opinion was expressed that the world's series should be abolished.

Ban Johnson, president of the American League, raved that Commissioner Landis should have declared the New York Giants ineligible and substituted the Brooklyn Robins as the opponents of Washington, or that he should have called off the series.

Scores of the leaders at Fresno, as announced by Chairman Kennerdell are: Cooper 300; Hill 160; Milton 90; Comer 50; McDonough 30.

Standings of the leaders now are: Murphy 1,595; Cooper 980; Comer 630; Hill 574; Corum 570; Fongler 563; Milton 461; Shafer 380; Hartz 356.

Two more races are to be driven before the 1924 season is closed and the championship is awarded.

On Oct. 25, at the new speedway at Charlotte, N. C., Cooper will face twenty-three starters in the elimination contests. This probably will be his hardest race since Indianapolis. With a victory at Charlotte, the national championship will be in his grasp.

The final race at Los Angeles Nov. 27, is looked upon as well within his reach, since it will be driven under conditions at which Cooper is an acknowledged master.

Original Daylight Saving

Daylight saving, as we know it, had its inception in England in 1907 in a book published by William Willett, entitled "The Waste of Daylight." A daylight-saving law was enacted in Great Britain in 1916, and in the following year in Denmark, Germany, Holland, Italy, France, Portugal and Australia.

GOPHERS AND
BADGERS IN
TIE GAME, 7-7OLD GRID RIVALS FAIL TO BREAK
THE DEAD-
LOCKBATTLE IN MADISON, WISCONSIN,
UNDER A HOT
SUN

Madison, Wis., Oct. 20.—The Badgers and Gophers, who fought a scoreless battle last year, again struggled through a tie game here Saturday afternoon under a hot sun.

The final score was 7 to 7. Abrahamson attempted a place kick for Minnesota from the 40-yard line one second before the whistle blew, but the ball went wide.

The Cardinals completely outplayed their foes in the first half, but the tables were turned in the second half.

Late in the first quarter, with the Badgers on the enemy 40-yard line, Harris passed to Leo Harmon, who eluded tacklers and raced 30 yards to a touchdown.

Smashing through the Minnesota line, the Cardinal backs carried the ball to the nine-yard line in the second quarter. Doyle Harmon attempted a drop kick, but the ball hit the crossbar and bounded back.

Penalties checked another Badger drive into enemy territory.

The turn of the game came early in the third quarter when Teckemeyer, Wisconsin center, passed the ball over D. Harmon's head and Gross recovered for Minnesota on the Badger eight-yard line.

The Northmen were stopped one foot from the goal line.

Toward the end of the quarter Lidberg and Schutte began ripping through the Cardinal line, carrying the ball from midfield until they finally pushed it over for a touchdown early in the fourth period.

Minnesota was unable to make any headway by the aerial route, Wisconsin intercepting four of the six attempts and the other two were incomplete. Lidberg and Schutte were the mainstays for Gopher gains. Leo Harmon and Captain Harris were first in Wisconsin play.—Duluth News Tribune.

Names Perpetuated

The "henry" is the practical unit of induction in the measurement of self and mutual induction. It was named in honor of Joseph Henry, who contributed greatly to the world's store of knowledge regarding electricity. In like manner was the watt, the practical unit of power or activity, named for James Watt, the mechanical engineer, famous for his improvements of the steam engine.

What People Talk About

In order to find out what the favorite topics of conversation are, some one has listened to 500 bits of chatter and classified them. "Business" was the popular topic with men, with "sports" next and "other men" ranked third, but with the women the subject of "men" ranked far ahead of anything else with "dress" second and "other women" third.

DEER HUNTERS--
You'll Have to Hurry

If your rifle needs any overhauling or repairing. Sights furnished and lined up by shooting at target. Bring in your "sick" shot guns, rifles and revolvers. If Captain Jack can't fix it, throw it away.

1256-11713pTRY SULPHUR ON
AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles' Mentho-Sulphur from any good druggist and use it like cold cream.—Advt.
